To Build a Better World Philip Zelikow, Condoleezza Rice, 2019-09-10 A deeply researched international history and exemplary study New York Times Book Review of how a divided world ended and our present world was fashioned as the world drifts toward another great time of choosing Two of America s leading scholar diplomats Philip Zelikow and Condoleezza Rice have combed sources in several languages interviewed leading figures and drawn on their own firsthand experience to bring to life the choices that molded the contemporary world Zeroing in on the key moments of decision the might have beens and the human beings working through them they explore both what happened and what could have happened to show how one world ended and another took form Beginning in the late 1970s and carrying into the present they focus on the momentous period between 1988 and 1992 when an entire world system changed states broke apart and societies were transformed Such periods have always been accompanied by terrible wars but not this time This is also a story of individuals coping with uncertainty They voice their hopes and fears They try out desperate improvisations and careful designs These were leaders who grew up in a postwar world who tried to fashion something better more peaceful more prosperous than the damaged divided world in which they had come of age New problems are putting their choices and the world they made back on the operating table It is time to recall not only why they made their choices but also just how great nations can step up to great challenges Timed for the thirtieth anniversary of the fall of the Berlin Wall To Build a

Better World is an authoritative depiction of contemporary statecraft. It lets readers in on the strategies and negotiations, nerve-racking risks, last-minute decisions and deep deliberations behind the dramas that changed the face of Europe and the world forever.

Give Work Leila Janah, 2017-09-26

Want to end poverty for good? Entrepreneur and Samasource founder Leila Janah has the solution: give work, not aid. An audacious, inspiring and practical book, Leila shows how it's possible to build a successful business that lifts people out of poverty not by giving them money but by giving them work. It's required reading for anyone who's passionate about solving real problems.

Adam Grant, author of *Give and Take* and *Originals*: Despite trillions of dollars in Western aid, 2.8 billion people worldwide still struggle in abject poverty. Yet the world's richest countries continue to send money mostly to governments targeting the symptoms rather than the root causes of poverty. We need a better solution. In *Give Work*, Leila Janah offers a much-needed solution to solving poverty: incentivize everyone from entrepreneurs to big companies to give dignified, steady, fair-wage work to low-income people. Her social business, Samasource, connects people living below the poverty line (on roughly \$2 a day) to digital work for major tech companies. To date, the organization has provided over 10 million in direct income to tens of thousands of people the world had written off, dramatically altering the trajectory of entire communities for the better. Janah and her team go into the world's poorest regions, from refugee camps in Kenya to the Mississippi Delta in Arkansas, and train people to do digital work for companies like Google, Walmart and Microsoft. Janah has tested various *Give Work* business models in all corners of the world. She shares poignant stories of people who have benefited from Samasource's work, where and why it hasn't worked, and offers a blueprint to fight poverty with an evidence-based, economically sustainable model. We can end extreme poverty in our lifetimes. Give work, and you give the poorest people on the planet a chance at happiness. Give work, and you give people the freedom to choose how to develop their own communities. Give work, and you create infinite possibilities.

La Bible des problématiques essentielles de l'Economie Numérique Claude-aimé Motongane, 2018-07-07 La plupart des grands comptes sont confrontés de nombreuses mutations découlant des changements sociétaux du fait de l'implosion du Cloud, des réseaux toujours plus puissants, des capacités de stockage accrues, de la volonté de mieux exploiter des données disponibles et de technologies toujours plus performantes. Les DSI sont engagés rapidement à répondre aux challenges posés par les besoins du Métier et fournir des réponses et solutions techniques modernes, efficaces, fiables, coûts. La multiplicité des acteurs implique que d'une part, rendent la tâche ardue et d'autre part, augmentent les risques et les failles en sécurité. Face à toutes ces transformations, les décideurs et les experts doivent avoir une bible à laquelle se rapprocher afin d'avoir quelques clairs et une approche éventuelle d'utiliser. Ce livre a pour vocation, au travers de 10 problématiques essentielles, de pouvoir servir de document de référence pour tous les DSI, les managers, les experts.

The Meritocracy Trap Daniel Markovits, 2019-09-10 This book flips your world upside down. Daniel Markovits argues that meritocracy isn't a virtuous, efficient system that rewards the best and brightest. Instead, it rewards middle-class families who can afford huge investments in their children's education. Frightening, eye-opening stuff. The Times Books of the Year. Even in the midst of runaway economic inequality and dangerous social division, it remains an axiom of modern life that meritocracy reigns supreme and promises to open opportunity to all. The idea that reward should follow ability and effort is so entrenched in our psyche that even as society divides itself at almost every turn, all sides can be heard repeating meritocratic notions. Meritocracy cuts to the heart of who we think we are. But what if both up and down the social ladder, meritocracy is a sham? Today, meritocracy has become exactly what it was conceived to resist: a mechanism for the concentration and dynastic transmission of wealth and privilege across

generations Upward mobility has become a fantasy and the embattled middle classes are now more likely to sink into the working poor than to rise into the professional elite At the same time meritocracy now ensnares even those who manage to claw their way to the top requiring rich adults to work with crushing intensity exploiting their expensive educations in order to extract a return All this is not the result of deviations or retreats from meritocracy but rather stems directly from meritocracy s successes This is the radical argument that The Meritocracy Trap prosecutes with rare force comprehensive research and devastating persuasion Daniel Markovits a law professor trained in philosophy and economics is better placed than most to puncture one of the dominant ideas of our age Having spent his life at elite universities he knows from the inside the corrosive system we are trapped within as well as how we can take the first steps towards a world that might afford us both prosperity and dignity [WTF?
