The Revolt of Unreason Michael Candelaria, 2012-01-01 This book examines solutions to the crisis of modernity proposed by the Spanish philosopher Miguel de Unamuno and the Mexican philosopher Antonio Caso Acceptance of the objective claims of modern scientific rationality and the consequent rejection of the objective validity of artistic moral and religious claims generates the crisis of modernity The problem is that of justifying artistic moral and religious claims Miguel de Unamuno in his classic work *The Tragic Sense of Life* addresses the conflict between the belief in personal immortality and modern scientific rationality Holding that there is no rational justification for the belief in immortality Unamuno finds a solution in a saving scepticism to act as if he deserved immortality In his book *Existence as Economy as Art and Charity* Caso attempts to create an *a posteriori* metaphysics based on the current results of science supplemented by the intuitions of art and morality In doing so Caso believes that he has enlarged the scope of the knowable to include objects of art morality and religion Unamuno by accepting the strict line of demarcation between faith and reason has no other recourse but to turn to decisionism By turning to intuitionism Caso believes that he has blurred the line of demarcation Decisionism and intuitionism therefore are worthy of further exploration
