Higher Education Financing in East and Southern Africa Pundy Pillay, 2010 This nine country study of higher education financing in Africa includes three East African states Kenya Tanzania and Uganda five countries in southern Africa Botswana Lesotho Mozambique Namibia and South Africa and an Indian Ocean island state Mauritius Higher Education Financing in East and Southern Africa explores trends in financing policies paying particular attention to the nature and extent of public sector funding of higher education the growth of private financing including both household financing and the growth of private higher education institutions and the changing mix of financing instruments that these countries are developing in response to public sector financial constraints This unique collection of African country case studies draws attention to the remaining challenges around the financing of higher education in Africa but also identifies good practices lessons and common themes *German Academic Exchange Service (DAAD) in Collaboration with Jomo Kenyatta University of Agriculture and Technology (JKUAT) Co-hosted the Research Management--Data Acquisition, Analysis, Interpretation, and Dissemination Workshop*, 2004 **The Status of Student Involvement in University Governance in Kenya** Mulinge, Munyae M., Arasa, Josephine N., 2017-05-05 This book examines the concept of the democratization of governance in universities in Kenya with particular emphasis on students involvement in governance processes and decision making Data were collected from members of the student community utilizing a structured self administered questionnaire and from purposively selected key informants and focus group discussants drawn from Kenyatta University representing the public sector and the United States International University representing the private sector The guiding argument for the study was that shared governance one of the principles of good governance is critical in enabling the universities to deliver their visions and the missions effectively The results revealed that while in principle Kenyan universities have embraced democratic governance in which all stakeholders including students have a role to play in practice they continue to violate the core principles of good governance particularly shared governance Specifically students who are major stakeholders in university education are largely excluded from significant structures of governance thereby limiting their influence and participation Although their representation is mainly provided via student self governance organs unions associations and or councils their effectiveness is undermined considerably by the lack of trust and confidence of the student body and the unending manipulation by top university administrators and external political actors Student active involvement in decision making is mainly confined to lower levels such as the school faculty and departmental programme The authors call for a paradigm shift in the involvement of students in the governance of universities in ways that discourage the current culture of tokenism and political correctness that characterizes public and private universities in Kenya **Natural Product Based Drug Discovery Against Human Parasites** Archana Singh, Brijesh Rathi, Anita K. Verma, Indrakant K. Singh, 2023-11-27 This book comprehensively reviews current and novel treatment strategies against human parasites including protozoans and

helminths using natural products The initial chapters summarize the conventional treatment strategies and natural product based therapeutics against these parasites It discusses biochemical tools and techniques for the discovery of natural product based drugs against human parasites The book also covers the ingenious and innovative mechanisms to achieve drug resistance by the protozoan parasites and strategies to overcome the resistance It entails mechanistic insight into the modulation of host immune responses to delay or inhibit parasite clearance and explores host pathogen interactions that mediate immunity against subsequent parasite challenge In turn the volume helps in understanding the immunobiology of the parasites and tools to identify candidate vaccine antigens and novel delivery systems against the protozoan parasites Lastly it explores the role of advanced methods including nanotechnology marine bioprospecting and microorganisms derived biochemicals against the protozoan parasites This book is useful for students and researchers of pharmacology parasitology zoology and other allied fields Trails in Academic and Administrative Leadership in Kenya Michieka, Ratemo
