*Achieving Science with CubeSats* National Academies of Sciences, Engineering, and Medicine, Division on Engineering and Physical Sciences, Space Studies Board, Committee on Achieving Science Goals with

CubeSats,2016-11-06 Space based observations have transformed our understanding of Earth its environment the solar system and the universe at large During past decades driven by increasingly advanced science questions space observatories have become more sophisticated and more complex with costs often growing to billions of dollars Although these kinds of ever more sophisticated missions will continue into the future small satellites ranging in mass between 500 kg to 0.1 kg are gaining momentum as an additional means to address targeted science questions in a rapid and possibly more affordable manner Within the category of small satellites CubeSats have emerged as a space platform defined in terms of 10 cm x 10 cm x 10 cm sized cubic units of approximately 1.3 kg each called U s Historically CubeSats were developed as training projects to expose students to the challenges of real world engineering practices and system design Yet their use has rapidly spread within academia industry and government agencies both nationally and internationally In particular CubeSats have caught the attention of parts of the U S space science community which sees this platform despite its inherent constraints as a way to affordably access space and perform unique measurements of scientific value The first science results from such CubeSats have only recently become available however questions remain regarding the scientific potential and technological promise of CubeSats in the future Achieving Science with CubeSats reviews the current state of the scientific potential and technological promise of CubeSats This report focuses on the platform s promise to obtain high priority science data as defined in recent decadal surveys in astronomy and astrophysics Earth science and applications from space planetary science and solar and space physics heliophysics the science priorities identified in the 2014 NASA Science Plan and the potential for CubeSats to advance biology and microgravity research It provides a list of sample science goals for CubeSats many of which address targeted science often in coordination with other spacecraft or use sacrificial or high risk orbits that lead to the demise of the satellite after critical data have been collected Other goals relate to the use of CubeSats as constellations or swarms deploying tens to hundreds of CubeSats that function as one distributed array of measurements

**Workplace Health Promotion, 2nd edition** Danijela Gasevic, Leah Okenwa-Emegwa, 2023-01-09 Work related factors have implications for health and wellbeing Due to the amount of time spent at the workplace and the impact of work on health over an individual s life course the workplace has evolved as an important arena for population health promotion Risk factors within the physical and psychosocial working environment as well as inadequate organizational support are associated with increasing work related health problems which result in psychosocial and economic implications for the individual the family the organization and the society Recent estimates revealed an increasing level of sickness absence due to work related factors among others In recognition of the importance of worker health and a healthy working life but also in line with numerous occupational health goals many organisations set aside significant amounts of financial resources annually to promote work well being However studies have shown that

despite this positive disposition among employers both employee participation and the impact of such programs remain minimal According to the Ottawa declaration for health promotion and the Luxembourg declaration for Workplace Health Promotion WHP should be strategic It is recommended that WHP be conducted in a systematic and continuous process of needs analysis priority setting planning implementation and evaluation Unfortunately available studies show that many companies have policies currently in place but lack knowledge regarding proper implementation and evaluation The foregoing phenomenon raises questions regarding the level of knowledge of and attitudes towards WHP among people in management positions This Research Topic aims to address factors affecting workplace health promotion What does WHP mean for employers What forms of WHP packages exist Is there evaluation and follow up of such interventions What are the barriers and facilitators relating to the uptake of WHP interventions among employees Do people in relevant managerial positions possess adequate knowledge regarding WHP Manuscripts that explore factors crucial for WHP including individual and organizational level factors crucial for WHP are welcomed Manuscripts on barriers evidence based interventions best practices analysis of existing policy documents and those with a life course perspective etc are also welcomed Manuscripts can be of national international and global perspectives

**Research into Talent Development in Youth Sports** Carlos Eduardo Gonçalves,Humberto M. Carvalho,Arne Güllich,2023-11-16 The last decade witnessed a plethora of literature about talent identification and talent development Most of the research is descriptive In addition an enormous quantity of publications attempted to define normative guidelines but mostly with relatively little empirical evidence to support them We believe it is time to overview the field critically appraise the situation of research and map the topics trends and gaps The large part of recent research has focused on talent identification and the factors that reveal talents In contrast relatively less research has addressed the question how young talents develop in a long term process towards becoming senior high performers This is an evolving field and research is still in a primarily explorative stage A variety of different study designs and methodological approaches have been employed to explore different factors and outcomes of talent development yielding heterogeneous findings

**Black Health in the South** Steven S. Coughlin,Lovoria B. Williams,Tabia Henry Akintobi,2023-03-21 As the result of redlining and other historical and contemporary injustices African Americans are less likely to own a home or to have equity which places them in danger of financial ruin if they experience an illness such as a heart attack stroke or cancer for which they are often at greater risk due to many social and environmental factors At the same time African American communities display many strengths and are often very resilient against these structural inequities The use of community coalitions is a valuable approach for addressing health disparities in African American communities and improving the cultural competence of health care providers further reduces the effects of health disparities With essays spanning topics from culturally appropriate health care to faith based

interventions and the role of research networks in addressing disparities this collection is pivotal for understanding the health of African Americans in the South *Performance Analysis in Sport* Miguel-Angel Gomez-Ruano, Sergio José Ibáñez, Anthony S. Leicht, 2020-12-29 This eBook is a collection of articles from a Frontiers Research Topic Frontiers Research Topics are very popular trademarks of the Frontiers Journals Series they are collections of at least ten articles all centered on a particular subject With their unique mix of varied contributions from Original Research to Review Articles Frontiers Research Topics unify the most influential researchers the latest key findings and historical advances in a hot research area Find out more on how to host your own Frontiers Research Topic or contribute to one as an author by contacting the Frontiers Editorial Office frontiersin.org/about/contact **Journey of the Future Enterprise** Jorge Calvo, 2020-10-29 To survive in the new competitive digital economy of artificial intelligence and the Internet of Things companies will have to change their management models The company of linear incremental growth is becoming obsolete Moonshot leaders like Elon Musk or Jeff Bezos aspire to bringing about massive transformations These visionaries seek radical solutions to big problems through enabling technologies that are easily scalable and yield increasing returns with decreasing marginal costs that in many cases approach zero In his book Journey of the Future Enterprise Jorge Calvo explains what the disruptive change of the Fourth Industrial Revolution consists of what moonshot leadership is and what exponential organizations ExOs are and having set out the conceptual framework explains how to gear companies toward the new economy In short this resource packed book is written for those who want to be part of this change for those who are suffering the impact of this radical transformation for those who feel lost as a result of the complexity and speed of the changes that are taking place and for those who want to better understand the drivers of the Fourth Industrial Revolution

**Physiological and Biomechanical Determinants of Swimming Performance** Pedro Figueiredo, Flávio De Souza Castro, Argyris G. Toubekis, Carla McCabe, Tiago M. Barbosa, 2022-11-17 **Strategic Investments in Instrumentation and Facilities for Extraterrestrial Sample Curation and Analysis** National Academies of Sciences, Engineering, and Medicine, Division on Engineering and Physical Sciences, Space Studies Board, Committee on Extraterrestrial Sample Analysis Facilities, 2019-04-29 The United States possesses a treasure trove of extraterrestrial samples that were returned to Earth via space missions over the past four decades Analyses of these previously returned samples have led to major breakthroughs in the understanding of the age composition and origin of the solar system Having the instrumentation facilities and qualified personnel to undertake analyses of returned samples especially from missions that take up to a decade or longer from launch to return is thus of paramount importance if the National Aeronautics and Space Administration NASA is to capitalize fully on the investment made in these missions and to achieve the full scientific impact afforded by these extraordinary samples Planetary science may be entering a new golden era of extraterrestrial sample return now is the time to assess how prepared the scientific community is to take advantage of these opportunities Strategic Investments in Instrumentation and Facilities

for Extraterrestrial Sample Curation and Analysis assesses the current capabilities within the planetary science community for sample return analyses and curation and what capabilities are currently missing that will be needed for future sample return missions. This report evaluates whether current laboratory support infrastructure and NASA's investment strategy is adequate to meet these analytical challenges and advises how the community can keep abreast of evolving and new techniques in order to stay at the forefront of extraterrestrial sample analysis.
