Jsc Islam Question Out 2014:

The Report: Jordan 2014 Oxford Business Group, 2014-10-30 A number of Jordan's key economic indicators have improved over the last year and GDP is forecast to grow by 3.5% in 2014. Jordan's reliance on energy imports is being addressed with increased focus on domestic oil shale reserves and nuclear energy while plans to build a pipeline through the country from Iraq will provide a stable oil supply at discounted rates. Jordan's expanding population has put pressure on state services particularly health where the private sector is expected to play an increasingly prominent role. Tourism revenues rose in 2014 and with the unveiling of a new arrivals terminal at Aqaba International Airport and plans for a national rail network these are expected to rise further in the coming years. All in all continued political stability, large scale transportation developments, the availability of a young educated workforce and government efforts to reduce the fiscal deficit and the country's reliance on energy imports should ensure Jordan maintains its strong position in the region.

Integrating the Expressive Arts Into Counseling Practice, Second Edition Suzanne Degges-White, Nancy L. Davis, 2017-09-28 When I used it I felt it was a very valuable resource linking work with the arts to the theoretical foundations of counseling. Sally S. Atkins, EdD, Professor Emerita, Founding Director of Expressive Arts, Appalachian State. They like the activities since it helps them learn more about the counseling theory which was discussed in the Theories of Counseling class. It provides more application. Some activities are pretty detailed and class time does not allow for much practice. But we discuss how this could be used in therapy sessions/groups. The book is short and very pointed in its information and use. We like it. Judy A. Schmidt, EdD, CRC, LPCA, University of North Carolina at Chapel Hill. Expanded and revised to reflect a broader understanding of the complementary approach to therapeutic treatment, this is the only text to integrate expressive arts counseling techniques with major theories of counseling and psychology. Substantial changes to the second edition include new chapters that address Neuroscience and Counseling, Trauma Informed Counseling, Animal Assisted Therapy, Mindfulness and Counseling, and Family Counseling along with a greater emphasis on cultural and diversity considerations throughout. The book is updated with over 30 new interventions including animal assisted and videographic interventions and new information about the neuroscientific foundations of expressive arts therapies. Updated references in each chapter and a suite of Instructor's Materials also add to the value of the second edition. The text integrates expressive arts therapies with 12 commonly used treatment modalities. Each chapter reviews a particular theory and describes how expressive and creative techniques can support and be easily integrated within that orientation. Over 90 field tested step by step interventions created by leading practitioners offer students and clinicians techniques that can be put to use immediately. New to the Second Edition: New chapters address Neuroscience and Counseling, Trauma Informed Counseling, Animal Assisted Therapy, Mindfulness and Counseling, and Family Counseling and the Expressive Arts.
