Energy and Water Development Appropriations for 2015 United States. Congress. House. Committee on Appropriations. Subcommittee on Energy and Water Development, 2014 **Energy and Water Development Appropriations for 2015: 2015 Congressional budget justification: Federal Energy Regulatory Commission; Defense Nuclear Facilities Safety Board; U.S. Nuclear Regulatory Commission; Appalachian Regional Commission; Delta Regional Authority; Denali Commission** United States. Congress. House. Committee on Appropriations. Subcommittee on Energy and Water Development, 2014 **A Research Agenda for Gentrification** Winifred Curran, Leslie Kern, 2023-06-01 Offering a new theoretical framework for understanding gentrification and displacement this timely Research Agenda focuses on resistance as the central research area in this subject field Arguing that the future of gentrification research should focus on accomplishing the end of gentrification chapters provide practical organizing and policy strategies using international case studies which are rooted in community based research **The Crisis of Israel's Democracy, 1948-2025** Ilan Peleg, Ruth Amir, 2025-07-10 The Crisis of Israel's Democracy 1948 2025 Origins Developments and Consequences focuses on Israeli democracy its deep historical origins development over seven decades long term consequences and possible resolutions While most commentaries on Israel's crisis focus on the proposals for judicial reform by the Netanyahu government this study focuses on what it identifies as the fundamental problems of the Israeli regime its ethnonational rather than liberal democratic form its lack of a written constitution undermines the country's deeply divided society the greatly dysfunctional relations between the secular majority and the sizeable Orthodox minority and above all the seemingly permanent occupation of the Palestinian inhabited West Bank Peleg and Amir offer a broad perspective on these causes covering the historical failures of the country's founders an analysis of Israel's constitutional order and regime type commentary on sociopolitical cleavages and the dominant social psychology of Israelis and analysis of the charismatic populism of longtime Israeli prime minister Benjamin Netanyahu The volume concludes with analyzing future scenarios and possible solutions for Israel's democratic crisis The Crisis of Israel's Democracy offers the most comprehensive analysis of Israel's democratic backsliding to date comparing it to similar worldwide processes **After the Education Wars** Andrea Gabor, 2018-06-12 The education wars have been demoralizing for teachers After the Education Wars helps us to see a better way forward Cathy N Davidson The New York Times Book Review After the Education Wars is an important book that points the way to genuine reform Diane Ravitch author of Reign of Error and The Death and Life of the Great American School System A bestselling business journalist critiques the top down approach of popular education reforms and profiles the unexpected success of schools embracing a nimbler more democratic entrepreneurialism In an entirely fresh take on school reform business journalist and bestselling author Andrea Gabor argues that Bill Gates Eli Broad and other leaders of the prevailing education reform movement have borrowed all the wrong lessons from the business world After the Education Wars explains how the market

based measures and carrot and stick incentives informing today's reforms are out of sync with the nurturing culture that good schools foster and contrary to popular belief at odds with the best practices of thriving twenty first century companies as well. These rich detailed stories of real reform in action illustrate how enduring change must be deeply collaborative and relentlessly focused on improvement from the grass roots up. Lessons also learned from both the open source software and quality movements. The good news is that solutions born of this philosophy are all around us from Brockton Massachusetts where the state's once failing largest high school now sends most graduates to college to Leander Texas a large district where school improvement spurred by the ideas of quality guru W Edwards Deming has become a way of life. A welcome exception to the doom and gloom canon of education reform. After the Education Wars makes clear that what's needed is not more grand ideas but practical and informed ways to grow the best ones that are already transforming schools.
