Cyclones in Southern Africa Godwell Nhamo,David Chikodzi,2021-09-28 Tropical cyclones in Southern Africa also known as hurricanes or typhoons in other regions of the world is a hot subject for academic research This focus has been magnified by the need to consider tropical cyclones in the context of other global development agendas that includes the 2030 Agenda for Sustainable Development and its inseparable 17 Sustainable Development Goals SDGs the Paris Agreement

the Sendai Framework for Disaster Risk Reduction and Habitat III's New Urban Agenda. The ambitious SDGs challenge global and community leaders to make sure development addresses the nexus among poverty, inequality and employment creation as well as care for the earth and its natural resources and biodiversity. The SDGs further present an agenda to eradicate hunger, bring quality education and sustain water and sanitation. The infrastructure development, human settlements, sustainable consumption and production, climate change, biodiversity and the ocean blue economy agendas are also pitched. Lastly, the 2030 Agenda for Sustainable Development encourages partnerships on delivering various programmes and projects at all spatial levels. However, as tropical cyclones continue to make multiple landfalls and ravage Southern Africa and other parts of the world, the achievement of the 2030 Agenda for Sustainable Development is threatened. To this end, this book addresses this gap by documenting the implications of tropical cyclones, drawing examples and case studies from recent tropical cyclones such as cyclone Idai and cyclone Kenneth that resulted in catastrophic impacts in 2019. The book comes as part of a series with three volumes. The other volumes include *Cyclones in Southern Africa Vol 1: Interfacing the Catastrophic Impact of Cyclone Idai with SDGs in Zimbabwe* and *Cyclones in Southern Africa Vol 2: Foundational and Fundamental Topics*. Given the foregoing, the book is suitable as a read for several professionals and disciplines such as tourism and hospitality studies, economics, sustainable development, development studies, environmental sciences, arts, geography, life sciences, politics, planning and public health.

Social Welfare and Social Work in Southern Africa Ndangwa Noyoo, 2021-06-11. This book is written by Southern African social welfare, social work, social development, social security and social policy academics, practitioners and advocates who have varying degrees of experience. The authors who contributed chapters to this book added their perspectives to ongoing debates about academic areas in the region. Thus, the book's primary objective is to discuss the development of social welfare and social work in Southern Africa. In doing so, it endeavours to contribute to the existing body of knowledge on social welfare and social work in the region. The chapters are examined through different theoretical lenses and historical perspectives. In this book, African scholars, academics and practitioners provide a deep and critical reflection of social welfare, social work and related disciplines during the colonial and post-colonial era, a period characterised by a deliberate move by Africa's political administrations to focus on nation building and to attempt to make Africa a global player. Despite being endowed with rich natural resources like minerals, agriculture and solid family and extended family life, the continent is weak globally. Furthermore, the book focuses on the pre-colonial period, a golden thread running through the chapters. The book discusses the colonial era when Western countries captured and oppressed Africa, characterised by the continent's history. This book is an appropriate publication at this point in our history, a resource that can be used to generate appropriate narratives and questions within the social welfare and social development sector, particularly on delivery, education and training.
