This is America Pasquale De Marco, 2025-07-18 This is America is a call to action for all Americans who believe in the power of unity and the promise of a better future In this powerful and timely book Pasquale De Marco argues that the only way to overcome our divisions and build a stronger more united America is to come together and work for the common good Pasquale De Marco explores the challenges facing our nation including the rise of political polarization the decline of the middle class and the growing gap between rich and poor He also offers a vision for a better future one where everyone has the opportunity to succeed regardless of their race religion or background Pasquale De Marco believes that we can build a better America by finding common ground on the issues that matter most to us such as healthcare education and the economy He also believes that we need to reduce the influence of money in politics and to make our government more responsive to the needs of the people This is America is a must read for anyone who cares about the future of our country It is a call to action for all Americans to come together and fight for the America we believe in If you like this book write a review

The American Clean Energy Security Act of 2009 United States. Congress. House. Committee on Energy and Commerce. Subcommittee on Energy and Environment, 2012

*Toward Environmental Wholeness* Patrick H. Byrne, 2024-03-01 *Toward Environmental Wholeness* proposes a new understanding of environmental

wholeness that is needed to address the ethical challenges posed by environmental and climate crises Relying on the studies of numerous historians Patrick H Byrne traces the complex developments in environmental and climate change sciences and how they have posed complex ethical challenges Drawing upon the thought of Bernard Lonergan he shows how seemingly contradictory contributions from diverse ethical traditions can be brought together into a framework for responding to what the developing sciences are telling us about our current situation and evaluating our realistic options Byrne reveals how the limitations of a utilitarian approach to environmental ethics had to be expanded into more holistic approaches and the difficulties those approaches encountered especially the Romantic notions of a pristine unchanging nature to be preserved and humans as alien Environmental and climate change sciences have revealed the complex dynamic natural and human systems that now call for a more dynamic vision of the whole as the basis for environmental ethics The book also examines how the initiatives of Pope Francis *Laudato si* and the United Nations Strategic Development Goals are responding to these challenges
