**Medievalizing of Modernity.** Jan M. Ziolkowski, 2018-08-29 This ambitious and vivid study in six volumes explores the journey of a single electrifying story from its first incarnation in a medieval French poem through its prolific rebirth in the nineteenth and twentieth centuries. The Juggler of Notre Dame tells how an entertainer abandons the world to join a monastery but is suspected of blasphemy after dancing his devotion before a statue of the Madonna in the crypt; he is saved when the statue, delighted by his skill, miraculously comes to life. Jan Ziolkowski tracks the poem from its medieval roots to its rediscovery in late nineteenth-century Paris, before its translation into English in Britain and the United States. The visual influence of the tale on Gothic revivalism and vice versa in America is carefully documented with lavish and inventive illustrations, and Ziolkowski concludes with an examination of the explosion of interest in The Juggler of Notre Dame in the twentieth century and its place in mass culture today. Volume 3: The American Middle Ages hinges upon two figures influenced by the juggler: Henry Adams, scion of Presidents and distinguished cultural historian whose works contributed to the rise of medievalism in America during the Gilded Age; and Ralph Adams Cram, the architect whose vision of Gothic accounts directly or indirectly for the campuses of West Point, Princeton, Yale, Chicago, Notre Dame, and many other universities across America. The Juggler of Notre Dame and the Medievalizing of Modernity is a rich case study for the reception of the Middle Ages in modernity. Spanning centuries and continents, the medieval period is understood through the lens of its post-modern reception in Europe and America. Profound connections between the verbal and the visual are illustrated by a rich trove of images, including book illustrations, stained glass, postage stamps, architecture, and Christmas cards. Presented with great clarity and simplicity, Ziolkowski's work is accessible to the general reader, while its many new discoveries will be valuable to academics in such fields and disciplines as medieval studies, medievalism, philology, literary history, art history, folklore, performance studies, and reception studies.

*Annual Report - Field Museum of Natural History*, Field Museum of Natural History, 1955      **American Art Directory**, 1984      **New York Magazine**, 1995-09-11 New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country. With award-winning writing and photography covering everything from politics and food to theater and fashion, the magazine's consistent mission has been to reflect back to its audience the energy and excitement of the city itself while celebrating New York as both a place and an idea.

*Nature*, 1895      *Beauty and the Beast*, Arnold Arluke, Robert Bogdan, 2010-11-05 From fairy tales to photography, nowhere is the complexity of human-animal relationships more apparent than in the creative arts. Art illuminates the nature and significance of animals in modern Western thought, capturing the complicated union that has long existed between the animal kingdom and us. In *Beauty and the Beast*, authors Arluke and Bogdan explore this relationship through the unique lens of photo postcards. This visual medium offers an enormous and relatively untapped archive to compellingly document their subject.
