Josua und Salomo Christa Schäfer-Lichtenberger, 2014-09-03 Josua und Salomo puts forward the thesis that the literary figure of the successor was created by circles who strongly relied on the book of Deuteronomy In order to construct the ideal of a successor they used the characters of Joshua and Solomon and implemented the results of their theological reflection which were unleashed by the complete destruction of the pre exilic political social and religious organization of the nation The figure of Joshua combines all the treats of their theological conception of an ideal political leader whereas the figure of Solomon demonstrates the dangers which are implied in monarchical succession From the theological perspective of deuteronomism Solomon and Joshua are opposite characters The deuteronomic concepts of God and authority play a central role for the reflection on both characters

Jesus the Seer Ben Witherington (III), 2014-10 Increasingly scholars recognize that prophetic traditions expressions and experiences stand at the heart of most religions in the ancient Mediterranean world This is no less true for the world of Judaism and Jesus Ben Witherington III offers an extensive cross cultural survey of the broader expressions of prophecy in its ancient Mediterranean context beginning with Mari moving to biblical figures not often regarded as prophets Balaam Deborah Moses and Aaron and

to the apocalyptic seer in postexilic prophecy showing that no single pattern describes all prophetic figures The consequence is that different aspects of Jesus activity touch upon prophetic predecessors his miracles on Elijah and Elisha his self understanding as the Son of Man on Daniel and 1 Enoch his warnings of woe and judgment on the writing prophets in Judean tradition and his messianic entry into Jerusalem on Zechariah 9 Witherington also surveys the phenomenon of apocalyptic prophecy in early Christianity including Paul Revelation the Didache Hermas and the Montanist movement Jesus the Seer is a worthy complement to Witheringtons other volume on Jesus Jesus the Sage Fortress Press 2000 **Changing Perspectives**

1 John Van Seters,2014-10-03 The volume brings together forty years of agenda setting scholarship in Israelite and Judean history The historical essays gathered here were among the first to raise serious questions about the patriarchal age the exodus from Egypt and the conquest of Canaan and the temple of Solomon The literary essays on the Pentateuch challenged both the classical Documentary Hypothesis and the more recent modifications that support the notion of an extensive Deuteronomistic redaction of the Pentateuch The final set of essays examines biblical notions of patriarchal religion myths of human origin and the legendary origins of Passover within a broad comparative context **1 and 2 Samuel** Bill T.

A300/AZX300 Twentieth-Century Literature: Texts and Debates ,2005 **Literature for Five Points, Option 2** Ellen Zelenko,2011 *If I Talk to You in Fables and Parables* Elissavet Evangelidou,2020 This study explores the representation of the Greek 1940s in the fiction for young readers published between 1974 and 2014 This is a subject that has remained completely unexplored until now despite the existence of a vast body of literature on the relationship between history memory and cultural representations of the turbulent Greek 1940s Covering the period from the restoration of democracy in 1974 until 2014 the corpus of literary texts under scrutiny comprises forty one novels and short story collections written for a young audience The study is divided into three Parts each of which examines the representation of certain aspects of the 1940s foreign occupation wartime collaboration Resistance and Civil War in the narratives published during 1974 1981 1982 1989 and 1990 2014 respectively The last chapter explores the construction of the literary image of

the Jew and the representation of the Greek Jewish experience of the Holocaust I argue that young people's fiction has served as a privileged site for the perpetuation of official national re-interpretations and changing popular perceptions of this turbulent period. Consequently, I go on to demonstrate that the authors' decision to include or exclude certain material from their fictional representations of the 1940s is linked to the prevailing politics of memory during the particular periods under study.
