The Identity Trap Yascha Mounk, 2025-09-23 Named a Best Book of the Year by The Economist Financial Times Inc Prospect Magazine and The Conversation The most comprehensive and reasonable story of this shift that has yet been attempted Mounk has told the story of the Great Awakening better than any other writer who has attempted to make sense of it The Washington Post An intellectual tour de force about the origins of identity politics and the threat it presents to genuine

honest old fashioned liberalism Bret Stephens The New York Times Among the most insightful and important books written in the last decade on American democracy and its current torments because it also shows us a way out of the trap Jonathan Haidt author of The Righteous Mind and coauthor of The Coddling of the American Mind Outstanding David Brooks The New York Times A fascinating account of the origins of wokeness and a trenchant explanation for why the noble goals of identity politics are doomed to fail For much of history societies have violently oppressed ethnic religious and sexual minorities It is no surprise that many came to believe that members of marginalized groups need to take pride in their identity to resist injustice But over the past decades a healthy appreciation for the culture and heritage of minority groups transformed into our contemporary form of identity politics a counterproductive obsession with group identity This new ideology denies that members of different groups can truly understand each other and insists that the way governments treat their citizens should depend on the color of their skin This Yascha Mounk argues is the identity trap Those who battle for these ideas are often full of good intentions But they ultimately stand in the way of the genuine equality we desperately need Mounk was one of the first to warn of the risks that right wing populists pose to American democracy a danger that remains as serious as ever But as he shows here the identitarian left and the populist right actually reinforce each other to vanquish one it is necessary to oppose both In The Identity Trap Mounk provides the most ambitious and comprehensive account to date of the origins consequences and limitations of wokeness He shows how postmodernism postcolonialism and critical race theory conquered many college campuses and forged an identity synthesis that gained tremendous influence in business media and government by 2020 Finally Mounk makes a nuanced philosophical case for why these ideas are so counterproductive and why universal humanist values can best serve the vital goal of true equality The Identity Trap provides truth and clarity where they are needed most

Information Ages Michael E. Hobart, Zachary S. Schiffman, 2000-05-26 A grand intellectual history from clay tablets to Bill Gates Selected by Choice Magazine as an Outstanding Academic Title The late twentieth century is trumpeted as the Information Age by pundits and politicians alike and on the face of it the claim requires no justification But in *Information Ages* Michael E Hobart and Zachary S Schiffman challenge this widespread assumption In a sweeping and captivating history of information technology from the ancient Sumerians to the world of Alan Turing and John von Neumann the authors show how revolutions in the technology of information storage from the invention of writing approximately 5 000 years ago to the mathematical models for describing physical reality in the seventeenth and eighteenth centuries to the introduction of computers profoundly transformed ways of thinking

Sonallah Ibrahim Starkey Paul Starkey, 2016-06-02 This volume is designed as an introduction to the contemporary Egyptian author Sonallah Ibrahim, one of the most important Arabic novelists of the modern era with an unrivalled reputation for independence and integrity among contemporary Egyptian writers The first study in any language devoted exclusively to Sonallah Ibrahim, the volume discusses each of the author's novels individually, beginning with the seminal *Tilka al-ra'ha* (That Smell) 1966 and ending with *al-Jalid* (Ice) 2011 Each work is discussed individually in its literary, social, historical and political context The volume traces the evolution of Sonallah Ibrahim's work in terms both of their themes and of their literary technique and concludes with an attempt at an overall evaluation of the author's contribution to the contemporary Egyptian novel Paul Starkey's account shows how innovative and stylistically rich the Arabic novel has become over a period of some fifty years beyond the better known work of writers such as Naguib Mahfouz and Yusuf Idris As such, the volume will serve as an introduction not only to the individual author but also to the development of Egyptian and more generally Arabic literature over the last half century

Poetics of Emptiness Jonathan Stalling, 2010 *Poetics of Emptiness* traces the historically specific intertextual pathways of a single, if polyvalent philosophical term, emptiness, as it is transformed within twentieth-century American poetry and poetics This conceptual migration is detailed in two sections The first, focusing on transpacific Buddhist poetics, discusses Ernest Fenollosa's *The Chinese Written Character as a Medium for Poetry* as an expression of Fenollosa's Buddhist poetics explores classical Chinese poetics as it was known by Fenollosa and talks about the role of emptiness in Gary Snyder The second half, on transpacific Daoist poetics, explores the career of poet, translator, critic Wai lim Yip and engages the weave of post-structural thought and Daoist and shamanistic discourses in Theresa Hak Kyung Cha Formulating interpretive frames as hybrid as the texts being read, this book unveils one of the most important yet still largely unknown stories of American poetry and poetics

Grand Illusions David M. Lubin, 2016-04-06 A vivid, engaging account of the artists and artworks that sought to make sense of America's first total war *Grand Illusions* takes readers on a compelling journey through the major historical events leading up to and beyond US involvement in WWI to discover the vast and pervasive influence of the conflict on American visual culture David M. Lubin presents a highly original examination of the era's fine arts and entertainment to show how they ranged from patriotic idealism to profound disillusionment In stylishly written chapters, Lubin assesses the war's impact on two dozen painters, designers, photographers and filmmakers from 1914 to 1933 He considers well-known figures such as Marcel Duchamp, John Singer Sargent, D. W. Griffith and the African American outsider artist Horace Pippin while resurrecting forgotten artists such as the mask maker

Anna Coleman Ladd the sculptor Gertrude Vanderbilt Whitney and the combat artist Claggett Wilson The book is liberally furnished with illustrations from epoch defining posters paintings photographs and films Armed with rich cultural historical details and an interdisciplinary narrative approach David Lubin creatively upends traditional understandings of the Great War s effects on the visual arts in America

Agatha Christie M. Makinen,2006-10-10 Christie s books depict women as adventurous independent figures who renegotiate sexual relationships along more equal lines Women are also allowed to disrupt society and yet the texts refuse to see them as double deviant because of their femininity This book demonstrates exactly how quietly innovatory Christie was in relation to gender

Moral Complexities in Turn of the Millennium British Literature Mara E. Reisman,2022-11-08 Moral Complexities in Turn of the Millennium British Literature offers a critical analysis of moral complexity and social responsibility in works by Kazuo Ishiguro Patrick McGrath Graham Swift Andrea Levy and Jeanette Winterson Mara Reisman argues that through their writing these authors reveal and upset literary cultural and political fictions and encourage readers to think carefully about language power community and social justice The book examines moral issues in two different ways how books by these authors address morally complex social political and cultural issues and how their books serve a moral function by challenging readers to be socially engaged Reisman provides an in depth analysis of *The Remains of the Day* *Asylum* *The Light of Day* *Small Island* and *The Daylight Gate* and uses these books to discuss twentieth and twenty first century British politics and culture These books address a wide variety of issues often associated with moral judgments war racism adultery maternal neglect murder professional misconduct witchcraft and religion Despite this diversity and settings that range from the seventeenth century to the late twentieth century these books include similar arguments about how empathy personal responsibility and civic engagement can create more productive social relations and a less divided world

Evil Gods and Reckless Saviours Timo Eskola,2011-09-09 Late twentieth century Jesus novels carve out a completely new picture of Jesus Those written by Norman Mailer Jos Saramago Michale Roberts Marianne Fredriksson and Ki Longfellow among others provide inversive revisions of the canonical Gospels Their adaptations often turn into a critique of the whole of Christian history The contrast novels investigated in this study end up with appropriations that are based on prototypical rewriting They aim at the rehabilitation of Judas and some of them make Mary Magdalene the key figure of Christianity Saramago describes God as a bloodthirsty tyrant and Mailer makes God battle the devil in a Manichaen sense as with an equal The main result of this intertextual analysis is that these authors have adopted Nietzschean ideas in their writing An attack on the so called biblical slave morality and violent concept of God deprives Jesus of his Jewish messianic identity makes Old Testament law a contradiction of life calls sacrificial soteriology a violent paradigm supporting oppression and presents God as a cruel monster As a result Jewish faith appears in a negative light Apparently Western culture still harbours anti Judaic attitudes albeit hidden beneath sentiments of equality and tolerance Timo Eskola skillfully shows that despite the evident post Holocaust consciousness present in the novels they

actually adopt an arrogant and ironic refutation of Jewish beliefs and Old Testament faith
