Interests And Integration Market Liberalization Public Opinion And European Union:

Interests and Integration Matthew Joseph Gabel, 2009-12-10 Explains differences in public support for integration in Europe

Interests and Integration, 2009 Integration in Europe has been a slow incremental process focusing largely on economic matters Policy makers have tried to develop greater support for the European Union by such steps as creating pan European political institutions Yet significant opposition remains to policies such as the creation of a single currency What explains continued support for the European Union as well as opposition among some to the loss of national control on some questions Has the incremental process of integration and the development of institutions and symbols of a united Europe transformed public attitudes towards the European Union In this book Matthew Gabel probes the attitudes of the citizens of Europe toward the European Union He argues that differences in attitudes toward integration are grounded in the different perceptions of how economic integration will affect individuals economic welfare and how perceptions of economic welfare effect political attitudes Basing his argument on Easton s idea that where affective support for institutions is low citizens will base their support for institutions on their utilitarian appraisal of how well the institutions work for them Gabel contends that in the European Union citizens appraisal of the impact of the Union on their individual welfare is crucial because their affective support is quite low This book will be of interest to scholars studying European integration as well as scholars interested in the impact of public opinion on economic policymaking Matthew Gabel is Assistant Professor of Political Science University of Kentucky

Identity, Interests and Attitudes to European Integration L. McLaren, 2005-12-16 With growing levels of Euroscepticism across EU member states grasping the roots of opposition to European integration has become more important than ever This book charts public perceptions of the European Union in both the EU 15 and the new member states and introduces an identity based model to explain mass Euroscepticism

Social Networks and Public Support for the European Union Elizabeth Radziszewski, 2013-11-26 Although political conversations on European integration are common they are not part of existing explanations for attitude formation on the EU This book examines the impact of social interactions specifically interpersonal and informal discussions on shaping individuals views on European integration Looking at opinion formation through the lens of social networks the author develops an innovative argument about the role that social networks play in delivering information and moulding individuals identities Including original survey data and an extended case study on Poland the book identifies three processes through which informal discussions could affect views on integration and shows that differences in discussion dynamics explain why some people change their opinions while other remain loyal to their views It shows that well connected leaders in small communities can use informal talks to ensure the spread of local ideas such as opposition to the EU even when such ideas are unpopular at the national level This book demonstrates that people who engage in informal talks about politics behave differently than those who are excluded from such interactions Social Networks and Public Support for the European Union will be of interest to students and scholars of

Daniel Kelemen, Anand Menon, Jonathan Slapin, 2016-04-14 This book explores one of the central challenges facing the EU today how to reconcile enlargement with the pursuit of a stronger and more effective European Union While the relationship between widening and deepening has been recognized for years as one of the big questions in the field of European integration existing theoretical and empirical analyses of this relationship suffer from a variety of shortcomings This book brings together a group of EU scholars who significantly advance our understanding of the relationship between widening and deepening The contributors challenge a variety of common wisdoms concerning the relationship between widening and deepening and offer nuanced theoretical and empirical analysis of the relationship between these two vital dimensions of European integration Collectively the contributors to this volume offer the most comprehensive picture available to date of the multi faceted relationship between widening and deepening This book was published as a special issue of the Journal of European Public Policy **Representing Religion in the European Union** Lucian Leustean, 2013 Religious actors are becoming part of the EU bureaucratic system and their mobilisation in Brussels and Strasbourg in the last decade has increased dramatically This book explores the mechanism and impact of religious representation by examining relations between religious practitioners and politicians in the European Union from the Second World War until today This book seeks to answer the following questions How do trans national religious groups enter into contact with European institutions What are the rationale and the mechanisms of religious representation in the European Union How are religious values transposed into political strategies What impact has relations between religious practitioners EU officials and politicians on the construction of the European Union Examining religious representation at the state transnational and institutional levels this volume demonstrates that faith is becoming an increasingly important element of the decision making process It includes chapters written by both academics and religious practitioners in dialogue with European institutions and will be of great interest to students and scholars of European politics history sociology of religion law and international relations The Oxford Handbook of the European Union Erik Jones, Anand Menon, Stephen Weatherill, 2012-08-30 The Oxford Handbook of the European Union brings together numerous acknowledged specialists in their field to provide a comprehensive and clear assessment of the nature evolution workings and impact of European integration *European Union Politics* Michelle Cini, 2007 With its established authority and reputation the new edition is an invaluable resource Michelle Cini has brought together a team of international contributors each specialising in a different field of EU politics The book is divided into five parts and deals with the history of the European integration process theories of European integration the European institutions a select number of European policy areas and issues of relevance to the study of EU politics The second edition has been updated throughout to reflect recent developments and there are four new chapters on the constitutional treaty CFSP and ESDP the single market and public

Globalization and Self-Determination David R. Cameron,Gustav Ranis,Annalisa Zinn,2006-04-12 Is the nation state under siege A common answer is that globalization poses two fundamental threats to state sovereignty The first concerns the unleashing of centrifugal and centripetal forces such as increasing market integration and the activities of institutions like the IMF World Bank and WTO that imperil state sovereignty from outside the nation state The second threat emanates from self determination movements that jeopardize state sovereignty from inside Rigorously analyzing popular hypotheses on globalization s effect on state sovereignty from a broad social sciences perspective the authors use empirical evidence to suggest that globalization s multilevel threats to state sovereignty have been overestimated In most instances globalization is likely to generate pressure for increased government spending while only one form of market integration foreign direct investment by multinational enterprises appears to increase any feeling of economic insecurity This volume will be invaluable to course instructors at both graduate and undergraduate levels policy makers and members of the general public who are concerned about the effects of globalization on the nation state
