Journey Back Issues In Black Literature And Criticism:

Encyclopedia of Contemporary Literary Theory Irene Rima Makaryk, 1993-01-01 The last half of the twentieth century has seen the emergence of literary theory as a new discipline As with any body of scholarship various schools of thought exist and sometimes conflict within it I R Makaryk has compiled a welcome guide to the field Accessible and jargon free the Encyclopedia of Contemporary Literary Theory provides lucid concise explanations of myriad approaches to literature that have arisen over the past forty years Some 170 scholars from around the world have contributed their expertise to this volume Their work is organized into three parts In Part I forty evaluative essays examine the historical and cultural context out of which new schools of and approaches to literature arose The essays also discuss the uses and limitations of the various schools and the key issues they address Part II focuses on individual theorists It provides a more detailed picture of the network of scholars not always easily pigeonholed into the categories of Part I This second section analyses the individual achievements as well as the influence of specific scholars and places them in a larger critical context Part III deals with the vocabulary of literary theory It identifies significant complex terms places them in context and explains their origins and use Accessibility is a key feature of the work By avoiding jargon providing mini bibliographies and cross referencing throughout Makaryk has provided an indispensable tool for literary theorists and historians and for all scholars and students of contemporary criticism and culture

Emancipating New York David Nathaniel Gellman, 2006 David N Gellman has written the most complete study to date of the abolition of slavery in New York State Focusing on public opinion he shows New Yorkers engaged in vigorous debates and determined activism during the final decades of the eighteenth century as they grappled with the possibility of freeing the state's black population In 1799 gradual emancipation in New York began a profound event Gellman argues It helped move an entire region of the country toward a historically rare slaveless democracy creating a wedge in the United States that would ultimately lead to the Civil War Gellman presents a comprehensive examination of the reasons for and timing of New York's dismantling of slavery It was the northern state with the greatest number of slaves more than 20 000 in 1790 Newspapers pamphlets legislative journals and organizational records reveal how whites and blacks citizens and slaves activists and politicians responded to the changing ideologies and evolving political landscape of the early national period and concluded that slavery did not fit with their state's emerging identity Support for the institution atrophied and eventually the preponderance of New York's political leaders endorsed gradual abolition The first book on its subject *Emancipating New York* provides a fascinating narrative of citizenry addressing longstanding injustices central to some of the greatest traumas of American history The debate within the New York public sphere over abolition proved a pivotal contest in the unraveling of worldwide slavery Gellman shows and set the stage for intense political conflicts in the nineteenth century

BOOK JACKET [Hip Hop's Inheritance](#) Reiland Rabaka, 2011-03-31 Hip Hop's Inheritance arguably offers the first book length treatment of what hip hop culture has literally inherited from the Harlem Renaissance the Black Arts movement the Feminist Art movement and 1980s and 1990s postmodern aesthetics By comparing and contrasting the major motifs of the aforementioned cultural aesthetic traditions with those of hip hop culture all the while critically exploring the origins and evolution of black popular culture from antebellum America through to Obama's America Hip Hop's Inheritance demonstrates that the hip hop generation is not the first generation of young black and white folk preoccupied with spirituality and sexuality race and religion entertainment and athletics or ghetto culture and bourgeois culture Taking interdisciplinarity and intersectionality seriously Hip Hop's

Inheritance employs the epistemologies and methodologies from a wide range of academic and organic intellectual activist communities in its efforts to advance an intellectual history and critical theory of hip hop culture Drawing from academic and organic intellectual activist communities as diverse as African American studies and women s studies postcolonial studies and sexuality studies history and philosophy politics and economics and sociology and ethnomusicology Hip Hop s Inheritance calls into question one dimensional and monodisciplinary interpretations or rather misinterpretations of a multidimensional and multivalent form of popular culture that has increasingly come to include cultural criticism social commentary and political analysis

The Ideological Origins of African American Literature Phillip M. Richards, 2025-06-27

Inquiry into African American literature in recent decades has neglected to probe the intellectual structure of the tradition s aesthetics and its underlying ideology In *The Ideological Origins of African American Literature* Phillip M Richards begins this reconstructive work illuminating the dialectical backstory of black prose and poetry in America Richards argues that the social and political forces that influenced white literature were uniquely reacted to absorbed and often times rejected by African American literary figures from the eighteenth century Puritan notions of a God centered history to the onset of Romanticism and Modernism in the nineteenth and twentieth centuries Building his case for ideological continuity Richards surveys a profoundly creative period of 125 years launched by an African American reaction against a racist mid eighteenth century American culture This epoch in African American literature saw a fusion of Puritan Protestant culture into a religious and secular worldview drawing in the poetry of Phillis Wheatley antebellum slave narratives Richard Allen and the periodicals of the ambitious African Methodist Episcopal movement all of which would form the underlying foundation of a Black Victorian culture A rising black middle class Richards argues would later be secularized by an eroding religious tradition under the pressures of nineteenth century modernity the trauma of Jim Crow and the emerging northern ghetto Richards further traces the emergence of Romanticism which appeared with white American authors such as Emerson Thoreau and Whitman but would not take shape in African American literature until the likes of W E B Du Bois and Langston Hughes took stock of Anglo European culture at the end of the nineteenth century *The Ideological Origins of African American Literature* illustrates a pattern of black writing that eschews the hegemonic white culture of the day for an evolving black culture that would define an American literary landscape

Fultz,2003 In this innovative study Lucille P Fultz explores Toni Morrison s rich body of work uncovering the interplay between differences love and hate masculinity and femininity black and white past and present wealth and poverty that lie at the heart of these vibrant and complex narratives Much has already been made of Morrison s treatment of race but *Playing with Difference* demonstrates that throughout her work Morrison creates a sophisticated matrix of difference layering a multitude of other distinctions onto the racial one and observing how these potencies of difference play themselves out in her characters Fultz s holistic thematic approach to her subject enables her to move deftly among the novels and stories building a nuanced understanding of how markers of difference influence Morrison s narrative decisions She examines Morrison s facility with imagery and wordplay and discusses the ways in which Morrison contends with the expectations of gender and race that have stiffened into traditions or worse prejudices Discussing the issues that unite and divide characters Fultz views each novel from *The Bluest Eye* 1970 to *Paradise* 1998 along with stories such as *Recitatif* as parts of an elaborate and dynamic whole The Difference Within Elizabeth A. Lawrence Hogue,1986-11-25 The central thesis of Lawrence Hogue s book is that criticism of Afro American literature has left out of account the way in which ideological pressures dictate the canon This fresh approach to the study of the social ideological and political dynamics of the Afro American literary text in the twentieth century based on the Foucauldian concept of literature as social institution examines the universalization that power effects how literary texts are appropriated to meet ideological concerns and needs

and the continued oppression of dissenting voices Hogue presents an illuminating discussion of the publication and review history of major and neglected texts He illustrates the acceptance of texts as exotica as sociological documents or as carriers of sufficient literary conventions to receive approbation Although the sixties movement allowed the text to move to the periphery of the dominant ideology providing some new myths about the Afro American historical past this marginal position was subsequently sabotaged co opted or appropriated Afros became a fad presidents gave the soul handshake the hip talking black was dressing one style and talking another This study includes extended discussion of four works Ernest J Gaines s *The Autobiography of Miss Jane Pittman* Alice Walker s *The Third Life of Grange Copeland* Albert Murray s *Train Whistle Guitar* and Toni Morrison s *Sula* Hogue assesses the informing worldviews of each and the extent and nature of their acceptance by the dominant American cultural apparatus
