enthraling writers artists philosophers scientists and tourists alike The Draw of the Alps interrogates the dynamics of this fascination Though philosophical and aesthetic responses to Alpine space have shifted over time the Alps continue to captivate at an individual and collective level This has resulted in myriad cultural engagements with Alpine space as this interdisciplinary volume attests Literature photography and philosophy continue to engage with the Alps as a place in which humans pursue their cognitive and aesthetic limits At the same time individuals engage physically with the alpine environment whether as visitors through the well established leisure industry as enthusiasts of extreme sports or as residents who feel the acute end of social and environmental change Taking a transnational view of Alpine space the volume demonstrates that the Alps are not geographically peripheral to the nation state but are a vibrant locus of modern cultural production As The Draw of the Alps attests the Alps are nothing less than a crucible in which understandings of what it means to be human have been forged

**Siamese Arabesques** Carleton Cole, 2016-11-06 Mix classical Middle Eastern culture with Thai ways and what do you get Something very intriguing and utterly exotic Some Arabs and Middle Easterners come to Bangkok for business and shopping Others come for unrestrained sensuality or medical tourism Still others open restaurants providing a welcome culinary service in Bangkok Phuket Pattaya and beyond And then there are those who need jobs while they await elusive UN approval for asylum Proud of their own culture one thing they don't come for is Thai culture Rarely do Arabs ever step foot inside infidel Thai Buddhist temples For centuries and especially in the last few decades Middle Eastern traders and travellers restaurateurs and refugees have left their mark on Thailand bestowing their cultural Islamic architectural culinary and musical heritage Digging deep Carleton

Cole writes about Middle Easterners who have called Thailand a home away from home **WLA**,2008 Chasing Tales Corinne Fowler,2007 Chasing Tales is the first exclusive study of journalism travel writing and the history of British ideas about Afghanistan It offers a timely investigation of the notional Afghanistan s that have prevailed in the popular British imagination Casting its net deep into the nineteenth century the study investigates the country s mythologisation by scrutinising travel narratives literary fiction and British news media coverage of the recent conflict in Afghanistan This highly topical book explores the legacy of nineteenth century paranoias and prejudices to contemporary travellers and journalists and seeks to explain why Afghans continue to be depicted as medieval murderous warlike and unruly Its title Chasing Tales conveys the circulation and indeed the circularity of ideas commonly found in British travel writing and journalism The tales component stresses the pivotal role played by fictionalised sources especially the writing of Rudyard Kipling in perpetuating traumatic nineteenth century memories of Afghan British encounter The subject matter is compelling and its foci of interest profoundly relevant both to current political debates and to scholarly enquiry about the ethics of travel *Asian Cultural Traditions* Carolyn Brown Heinz,Jeremy A. ### **Travel Narrative and the Ends of Modernity** Stacy Burton, 2014 Combining theoretical arguments with close reading this text traces how

twentieth century writers have reinvented travel narrative for new purposes *Travelling in Different Skins* Dúnlaith Bird, 2012-07-05 D nlaith Bird argues that vagabondage a physical and textual elaboration of gender identity in motion emerges as a totemic concept in European women s travel writing from 1850 For travellers including Olympe Audouard Isabella Bird Isabelle Eberhardt and Freya Stark vagabondage is a means of pushing out the physical geographical and textual parameters by which women are defined Travelling in Different Skins explores the negotiations of European women travel writers from 1850 1950 within the traditionally male oriented discourses of colonialism and Orientalism Moving from historical overview to close textual reading it traces a complex web of tacit collusion and gleeful defiance These women improvise access to the highly gendered imaginative geography of the Orient Tactics including cross dressing commerciality and the effacement of their male companions are used to carve out a space for their unconventional and often sexually hybrid constructions Using a composite theoretical basis of the later critical work of Judith Butler and Edward Said this comparative study of British and French colonial empires and gender norms draws out the nuances in these travellers constructions of gender identity Women travel writers are shown to play an important role in the legacy of sexual experimentation and self

creation in the Orient traditionally associated with male writers including Gide and Pierre Loti and now ripe for critical re evaluation This study demonstrates how these women use lived experiences of restriction and negotiation to elaborate advanced theories of motion and gender construction presaging the concerns of twenty first century feminism and post colonialism

**African Democracy** Thompson, Gardner, 2016-04-17 The concepts of democracy and good governance have been at the centre of criticism of governments all over the world What democracy entails however has never been agreed most notably on the African continent African politicians who have been criticised for reigning over undemocratic regimes have insisted that the West judges them by criteria that don t apply to African circumstances Is there such a thing as African democracy Informed and intrigued by two events that happened in different eras in different countries Gardner Thompson has written an in depth historical examination of the nature of imported democracy as practised in the East African countries of Uganda where he worked as a young History teacher in the 70s Kenya and Tanzania The events were the 1971 Amin capture of power from Milton Obote in Uganda and the post election violence that rocked Kenya in 2007 2008 pitting then incumbent Mwai Kibaki against his erstwhile colleague Raila Odinga along what many read to be tribal lines Dividing the book into three sections Thompson treats democracy in the three former colonies from the perspectives of pre independence colonialism the transition to independence and governance since independence Reflecting indigenous history the colonial past and evolving culture flawed but functioning forms of government have emerged in the three states
