Mystery and Detective Arthur Conan Doyle, 2017-11-17 Sir Arthur Ignatius Conan Doyle DL 22 May 1859 7 July 1930 was a Scottish author most noted for his stories about the detective Sherlock Holmes which are generally considered a major innovation in the field of crime fiction and the adventures of Professor Challenger. He was a prolific writer whose other works include science fiction stories, historical novels, plays, and romances, poetry, and non-fiction. Conan was originally a given name, but Doyle used it as part of his surname in his later years. It was in the spring of the year 1894 that all London was interested and the fashionable world dismayed by the murder of the Honourable Ronald Adair under most unusual and inexplicable circumstances. The public has already learned those particulars of the crime which came out in the police investigation, but a good deal was suppressed upon that occasion since the case for the prosecution was so overwhelmingly strong that it was not necessary to bring forward all the facts. Only now, at the end of nearly ten years, am I allowed to supply those missing links which make up the whole of that remarkable chain. The crime was of interest in itself, but that interest was as nothing to me compared to the inconceivable sequel which afforded me the greatest shock and surprise of any event in my adventurous life. Even now, after this long interval, I find myself thrilling as I think of it and feeling once more that sudden flood of joy, amazement, and incredulity which utterly submerged my mind. Let me say to that public which has shown some interest in those glimpses which I have occasionally given them of the thoughts and actions of a very remarkable man that they are not to blame me if I have not shared my knowledge with them, for I should have considered it my first duty to have done so had I not been barred by a positive prohibition from his own lips, which was only withdrawn upon the third of last month. Sherlock Holmes Arthur Conan Doyle, 2009 This enthralling collection of Sherlock Holmes adventures comprises the first two volumes of Sir Arthur Conan Doyle's short stories. *The Adventures* and *The Memoirs*. *The Adventures* was originally published in 1892 and included twelve stories that had appeared in *Strand* magazine over the previous year. *The Memoirs* followed suit in 1894, completing the collection of *Strand* short stories up to that point. *The Adventures of Sherlock Holmes* contains four of Conan Doyle's own all-time favourite Holmes mysteries: *The Adventure of the Speckled Band*, *The Red Headed League*, *A Scandal in Bohemia*, and *The Five Orange Pips*. *The Memoirs of Sherlock Holmes* has another three of Conan Doyle's favourites in *The Adventure of the Reigate Squire*, *The Adventure of the Musgrave Ritual*, and *The Adventure of the Final Problem*. It is in *The Final Problem*, of course, that Dr Watson sadly reports the death of Holmes at the Reichenbach Falls near Meiringen in Switzerland. Holmes's titanic struggle with his arch-enemy Professor Moriarty had seen them both apparently plunge over a sheer drop, although Watson never actually finds Holmes's body. This was Conan Doyle's attempt to bring an end to Holmes's adventures, but he was to be resurrected by popular demand eight years later. *The Memoirs* also includes *The Adventure of the Greek Interpreter*, in which Holmes's brother Mycroft appears for the first time, and *The Adventure of the Gloria Scott*, in which Holmes describes to Watson his very first case.
