Stephanie Li,2015 The postwar period witnessed an outpouring of white life novels that is texts by African American writers focused almost exclusively on white characters Almost every major mid twentieth century black writer including Zora Neale Hurston Richard Wright Ann Petry and James Baldwin published one of these anomalous texts Controversial since their publication in the 1940s and 50s these novels have since fallen into obscurity given the challenges they pose to traditional conceptions of the African American literary canon *Playing in the White* Black Writers White Subjects aims to bring these neglected novels back into conversations about the nature of African American literature and the unique expectations imposed upon black texts In a series of nuanced readings Li demonstrates how postwar black novelists were at the forefront of what is now commonly understood as whiteness studies Novels like Hurston s *Seraph on the Suwanee* and Wright s *Savage Holiday* once read as abdications of the political imperative of African American literature are revisited with an

awareness of how whiteness signifies in multivalent ways that critique America's abiding racial hierarchies. These novels explore how this particular racial construction is freighted with social power and narrative meaning. Whiteness repeatedly figures in these texts as a set of expectations that are nearly impossible to fulfill. By describing characters who continually fail at whiteness, white life novels ask readers to reassess what race means for all Americans. Along with its close analysis of key white life novels, *Playing in the White* by Black Writers also provides important historical context to understand how these texts represented the hopes and anxieties of a newly integrated nation.

An Organon of Life Knowledge Michael Basseler, 2019-01-23 Can fiction teach us how to live? This study offers a fresh take on the North American short story, exploring how the genre has engaged in the construction and circulation of life knowledge. Echoing the resurgence of short story scholarship in recent years, it thus contributes a genre-focused perspective to the growing field of literature and knowledge studies. Drawing on stories from the late 19th century to the present by authors such as Henry James, F. Scott Fitzgerald, Eudora Welty, Junot Díaz, and Alice Munro, Michael Basseler examines how knowledge about life and how to live it is generically constituted and vice versa: how literary genres such as the short story are embedded in broader cultural frameworks of knowledge production.

Survive and Resist Shauna L. Shames, Amy L. Atchison, 2019-08-06 Authoritarianism is on the march, and so is dystopian fiction. In the brave new twenty-first century, young adult series like *The Hunger Games* and *Divergent* have become blockbusters. After Donald Trump's election, two dystopian classics, *1984* and *The Handmaid's Tale*, skyrocketed to the New York Times best-seller list. This should come as no surprise: dystopian fiction has a lot to say about the perils of terrible government in real life. In *Survive and Resist*, Amy L. Atchison and Shauna L. Shames explore the ways in which dystopian narratives help explain how real-world politics work. They draw on classic and contemporary fiction, films, and TV shows, as well as their real-life counterparts, to offer funny and accessible explanations of key political concepts. Atchison and Shames demonstrate that dystopias, both real and imagined, help bring theories of governance, citizenship, and the state down to earth. They emphasize nonviolent resistance and change, exploring ways to challenge and overcome a dystopian-style government. Fictional examples, they argue, help give us the tools we need for individual survival and collective resistance. A clever look at the world through the lenses of pop culture, classic literature, and real-life events, *Survive and Resist* provides a timely and innovative approach to the fundamentals of politics for an era of creeping tyranny.

Wild Child Naomi Morgenstern, 2018-05-08 Exploring how the figure of the wild child in contemporary fiction grapples with contemporary cultural anxieties about reproductive ethics and the future of humanity In the eighteenth century Western philosophy positioned the figure of the child at the border between untamed nature and rational adulthood Contemporary cultural anxieties about the ethics and politics of reproductive choice and the crisis of parental responsibility have freighted this liminal figure with new meaning in twenty first century narratives In Wild Child Naomi Morgenstern explores depictions of children and their adult caregivers in extreme situations ranging from the violence of slavery and sexual captivity to accidental death mass murder torture and global apocalypse in such works as Toni Morrison's A Mercy Cormac McCarthy's The Road Lionel Shriver's We Need to Talk about Kevin Emma Donoghue's Room and Denis Villeneuve's film Prisoners Morgenstern shows how in such narratives wild children function as symptoms of new ethical crises and existential fears raised by transformations in the technology and politics of reproduction and by increased ethical questions about the very decision to reproduce In the face of an uncertain future that no longer confirms the confidence of patriarchal humanism such narratives displace or project present day apprehensions about maternal sacrifice and paternal protection onto the wildness of children in a series of hyperbolically violent scenes Urgent and engaging Wild Child offers the only extended consideration of how twenty first century fiction has begun to imagine the decision to reproduce and the ethical challenges of posthumanist parenting
