## **Business Studies September 2014 Question Paper From Eastern Cape:**

Mobility and Migration Choices Martin van der Velde, Ton van Naerssen, 2016-03-03 The crossing of national state borders is one of the most discussed issues of contemporary times and it poses many challenges for individual and collective identities This concerns both short distance mobility as well as long distance migration Choosing to move or not across international borders is a complex decision involving both cognitive and emotional processes This book tests the approach that three crucial thresholds need to be crossed before mobility occurs the individual's mindset about migrating the choice of destination and perception of crossing borders to that location and the specific routes and spatial trajectories available to get there Thus both borders and trajectories can act as thresholds to spatial moves The threshold approach with its focus on processes affecting whether when and where to move aims to understand the decision making process in all its dimensions in the hope that this will lead to a better understanding of the ways migrants conceive perceive and undertake their transnational journeys This book examines the three constitutive parts discerned in the cross border mobility decision making process people borders and trajectories and their interrelationships Illustrated by a global range of case studies it demonstrates that the relation between the three is not fixed but flexible and that decision making contains aspects of belonging instability security and volatility affecting their mobility or immobility

Business and Social Crisis in Africa Antoinette Handley, 2019-11-21 Much of the time when confronted with a crisis of national dimensions businesses do exactly what we expect them to do they look to their own survival Occasionally however firms in some contexts go beyond this Based on qualitative country based fieldwork in Eastern and Southern Africa Antoinette Handley examines how African businesses can be key responders to wider social and political crises often responding well in advance of the state She reveals the surprising ways in which business responses can be focused not on short term profits but instead on ways that assist society in resolving that crisis in the long term Taking African businesses in Kenya Uganda Botswana and South Africa as case studies this detailed exploration of the private sector response to crises including HIV AIDS and political violence crises introduces the concept of relative business autonomy exploring the conditions under which it can emerge and develop when and how it may decline and how it might contribute to a higher level of overall societal resilience

*Prisoners of the Past* Steven Friedman,2021-06-01 Building on the work of economic historian Douglass North and Ugandan political scholar Mahmood Mamdani, Friedman argues that the difficulties besetting South African democracy are legacies of the past, not products of the post-1994 era. South Africa's democracy is often seen as a story of bright beginnings gone astray: a pattern said to be common to Africa. The negotiated settlement of 1994, it is claimed, ended racial domination and created the foundation for a prosperous democracy, but greedy politicians betrayed the promise of a new society. In *Prisoners of the Past*, Steven Friedman astutely argues that this misreads the nature of contemporary South Africa. Building on the work of the economic historian Douglass North and the political thinker Mahmood Mamdani, Friedman shows that South African democracy's difficulties are legacies of the pre-1994 past. The settlement, which ushered in majority rule, left intact core features of the apartheid economy and society. The economy continues to exclude millions from its benefits, while racial hierarchies have proved stubborn. Apartheid is discredited, but the values of the pre-1948 colonial era, the period of British colonization, still dominate. Thus, South Africa's democracy supports free elections, civil liberties, and the rule of law, but also continues past patterns of exclusion and domination. Friedman reasons that this path dependence is not, as is often claimed, the result of constitutional compromises in 1994 that left domination untouched. This bargain was flawed because it brought not too much compromise but too little. Compromises extended political citizenship to all, but there were no similar bargains on economic and cultural change. Using the work of the radical sociologist Harold Wolpe, Friedman shows that only negotiations on a new economy and society can free South Africans from the prison of the past. [The Routledge Companion to Design Studies](#) Penny Sparke, Fiona Fisher,2016-06-17 Since the 1990s, in response to dramatic transformations in the worlds of technology and the economy, design, a once relatively definable discipline complete with a set of sub-disciplines, has become unrecognizable. Consequently, design scholars have begun to address new issues, themes, and sub-disciplines, such as sustainable design, design for well-being, empathic design, design activism, design anthropology, and many more. The Routledge Companion to Design Studies charts this new expanded spectrum and embraces the wide range of scholarship relating to design, theoretical practice, related, and historical, that has emerged over the last four decades. Comprised of forty-three newly commissioned essays, the Companion is organized into the following six sections: Defining Design Discipline, Process, Defining Design Objects, Spaces, Designing Identities, Gender, Sexuality, Age, Nation, Designing Society, Empathy, Responsibility, Consumption, the Everyday, Design and Politics, Activism, Intervention, Regulation, Designing the World, Globalization, Transnationalism, Translation. Contributors include both established and emerging scholars, and the essays offer an

international scope covering work emanating from and relating to design in the United Kingdom mainland Europe North America Asia Australasia and Africa This comprehensive collection makes an original and significant contribution to the field of Design Studies

**Political Economy of Post-apartheid South Africa** Gumede, Vusi, 2017-05-05 The book made up of three parts covers a wide spectrum of political economy issues on post apartheid South Africa Although the text is mainly descriptive to explain various areas of the political economy of post apartheid South Africa the first and the last parts provide illuminating insights on the kind of society that is emerging during the twenty one years of democracy in the country The book discusses important aspects of the political history of apartheid South Africa and the evolution of post apartheid society including an important recap of the history of southern Africa before colonialism The text is a comprehensive description of numerous political economy phenomena since South Africa gained its political independence and covers some important themes that have not been discussed in detail in other publications on post apartheid South Africa The book also updates earlier work of the author on policy and law making land and agriculture education and training as well as on poverty and inequality in post apartheid South Africa thereby providing a wide ranging overview of the socio economic development approaches followed by the successive post apartheid administrations Interestingly three chapters focus on various aspects of the post apartheid South African economy economic policies economic empowerment and industrial development Through the lens of the notion of democratic developmental state and taking apartheid colonialism as a point of departure the book suggests that so far post apartheid South Africa has mixed socio economic progress The author s extensive experience in the South African government ensures that the book has policy relevance while it is also theoretically sound The text is useful for anyone who wants to understand the totality of the policies and legislation as well as the political economy interventions pursued since 1994 by the South African Government
