The Living Church ,1996-07

The Enchantments of Technology Lee Bailey, 2010-10-01 In *The Enchantments of Technology* Lee Worth Bailey erases the conventional distinction between myth and machine in order to explore the passionate foundations concealed in technological culture and address its complex ethical moral and social implications Bailey argues that technological society does not simply disenchant the world with its reductive methods and mechanical metaphors then shape machines with political motives but is also borne by a deeper subversive undertow of enchantment Addressing examples to explore the complexities of these enchantments his thought is full of illuminating examinations of seductively engaging technologies ranging from the old camera obscura to new automobiles robots airplanes and spaceships This volume builds on the work of numerous scholars including Jacques Ellul and Jean Brun on the phenomenological and spiritual aspects of technology Carl Jung on the archetypal collective unconscious approach to myth and Martin Heidegger on Being itself Bailey creates a dynamic interdisciplinary postmodern examination of how our machines and their environments embody not only reason but also desires

The Spirit of Getting Organized Pamela Kristan, 2003-01-01 *The Spirit of Getting Organized* is about sorting papers and using file folders But there s more to life than a neat office After years in the field of professional organizing Pamela Kristan realized that organizing was a doorway an opportunity to find personal power and meaning Organizing is an intimate encounter with life s everyday details that has the power to engage us profoundly with our soul with our world and with the farthest reaching grandest patterns of Nature Rather than pulling us away from spiritual work with mundane chores organizing can draw us into the cosmos

Readers In Wonderland Deborah O'Keefe, 2004-08-03 O Keefe examines a wide range of children s fantasy books and draws on her own experiences as a sympathetic reader as well as on the views of psychologists and social theorists *Readers in Wonderland* ranges from William Steig s small picture books to J R R Tolkien s epic series from utopias like L Frank Baum s *Oz* to dystopias like Virginia Hamilton s *Dustland* from less known works like Patricia Wrightson s to the phenomenon that is J K Rowling s *Harry Potter* from time travel to parallel worlds and from magical transformations and wishes that come true to lonely journeys and huge battles of good against evil
