Twentieth-Century Russian Poetry Katharine Hodgson, Joanne Shelton, Alexandra Smith, 2017-04-21 The canon of Russian poetry has been reshaped since the fall of the Soviet Union A multi authored study of changing cultural memory and identity this revisionary work charts Russia s shifting relationship to its own literature in the face of social upheaval Literary canon and national identity are inextricably tied together the composition of a canon being the attempt to single out those literary

works that best express a nation's culture. This process is of course fluid and subject to significant shifts particularly at times of epochal change. This volume explores changes in the canon of twentieth century Russian poetry from the 1991 collapse of the Soviet Union to the end of Putin's second term as Russian President in 2008. In the wake of major institutional changes such as the abolition of state censorship and the introduction of a market economy the way was open for wholesale reinterpretation of twentieth century poets such as Iosif Brodskii, Anna Akhmatova and Osip Mandelstam, their works and their lives. In the last twenty years many critics have discussed the possibility of various coexisting canons rooted in official and non-official literature and suggested replacing the term Soviet literature with a new definition: Russian literature of the Soviet period. Contributions to this volume explore the multiple factors involved in reshaping the canon understood as a body of literary texts given exemplary or representative status as classics. Among factors which may influence the composition of the canon are educational institutions, competing views of scholars and critics including figures outside Russia and the self-canonising activity of poets themselves. Canon revision further reflects contemporary concerns with the destabilising effects of emigration and the internet and the desire to reconnect with pre-revolutionary cultural traditions through a narrative of the past which foregrounds continuity. Despite persistent nostalgic yearnings in some quarters for a single canon the current situation is defiantly diverse, balancing both the Soviet literary tradition and the parallel contemporaneous literary worlds of the emigration and the underground. Required reading for students, teachers and lovers of Russian literature.

Twentieth Century Russian Poetry brings our understanding of post-Soviet Russia up to date. **Dark Toys** David Hopkins, 2021-01-01. A wide-ranging look at surrealist and postsurrealist engagements with the culture and imagery of childhood. We all have memories of the object world of childhood. For many of us, playthings and images from those days continue to resonate. Rereading a swathe of modern and contemporary artistic production through the lens of its engagement with childhood, this book blends in depth art historical analysis with sustained theoretical exploration of topics such as surrealist temporality, toys, play, nostalgia, memory and 20th century constructions of the child. The result is an entirely new approach to the surrealist tradition via its engagement with childish things. Providing what the author describes as a long history of surrealism, this book plots a trajectory from surrealism itself to the art of the 1980s and 1990s through to the present day. It addresses a range of figures from Marcel Duchamp, Giorgio de Chirico, Max Ernst, Hans Bellmer, Joseph Cornell and Helen Levitt at one end of the spectrum to Louise Bourgeois, Eduardo Paolozzi, Claes Oldenburg, Susan Hiller, Martin Sharp, Helen Chadwick, Mike Kelley and Jeff Koons at the other.

Comics and Stuff Henry Jenkins, 2020-04-14. Considers how comics display our everyday stuff: junk drawers, bookshelves, attics as a way into understanding how we represent ourselves now. For most of their history, comics were widely understood as disposable: you read them and discarded them and the pulp paper they were printed on decomposed over time. Today, comic books have been rebranded as graphic novels, clothbound, high-gloss volumes that can be purchased in bookstores, checked out of libraries and displayed proudly on bookshelves. They are reviewed by

serious critics and studied in university classrooms A medium once considered trash has been transformed into a respectable if not elite genre While the American comics of the past were about hyperbolic battles between good and evil most of today's graphic novels focus on everyday personal experiences Contemporary culture is awash with stuff They give vivid expression to a culture preoccupied with the processes of circulation and appraisal accumulation and possession By design comics encourage the reader to scan the landscape to pay attention to the physical objects that fill our lives and constitute our familiar surroundings Because comics take place in a completely fabricated world everything is there intentionally Comics are stuff comics tell stories about stuff and they display stuff When we use the phrase and stuff in everyday speech we often mean something vague something like etcetera In this book stuff refers not only to physical objects but also to the emotions sentimental attachments and nostalgic longings that we express or hold at bay through our relationships with stuff In *Comics and Stuff* his first solo authored book in over a decade pioneering media scholar Henry Jenkins moves through anthropology material culture literary criticism and art history to resituate comics in the cultural landscape Through over one hundred full color illustrations using close readings of contemporary graphic novels Jenkins explores how comics depict stuff and exposes the central role that stuff plays in how we curate our identities sustain memory and make meaning *Comics and Stuff* presents an innovative new way of thinking about comics and graphic novels that will change how we think about our stuff and ourselves

Persons and Things Barbara Johnson, 2008-04-30 Moving effortlessly between symbolist poetry and Barbie dolls artificial intelligence and Kleist Kant and Winnicott Barbara Johnson not only clarifies psychological and social dynamics she also re-dramatizes the work of important tropes without ever losing sight of the ethical imperative with which she begins the need to treat persons as persons In *Persons and Things* Johnson turns deconstruction around to make a fundamental contribution to the new aesthetics She begins with the most elementary thing we know deconstruction calls attention to gaps and reveals that their claims upon us are fraudulent Johnson revolutionizes the method by showing that the inanimate thing exposed as a delusion is central to fantasy life that fantasy life however deluded should be taken seriously and that although a work of art is formed around something missing this void is its vanishing point not its essence She shows deftly and delicately that the void inside Keats's urn Heidegger's jug or Wallace Stevens's jar forms the center around which we tend to organize our worlds The new aesthetics should restore fluidities between persons and things In pursuing it Johnson calls upon Ovid Keats Poe Plath and others who have inhabited this in-between space The entire process operates via a subtlety that only a critic of Johnson's caliber could reveal to us

Children's Literature and the Posthuman Zoe Jaques, 2015-02-11 An investigation of identity formation in children's literature this book brings together children's literature and recent critical concerns with posthuman identity to argue that children's fiction offers sophisticated interventions into debates about what it means to be human and in particular about humanity's relationship to animals and the natural world In complicating questions of human identity ecology gender and technology Jaques engages with a multifaceted posthumanism to understand how philosophy can emerge from children's fantasy disclosing how such fantasy can build upon earlier traditions to represent complex issues of humanness to younger audiences Interrogating the place of the human through the non-human whether animal or mechanical leads this book to have interpretations that radically depart from the critical tradition which in its concerns with the socialization and representation of the child has ignored larger epistemologies of humanness The book considers canonical texts of children's literature alongside recent bestsellers and films locating texts such as *Gulliver's Travels* 1726 *Pinocchio* 1883 and the *Alice* books 1865 1871 as important works in the evolution of posthuman ideas This study provides radical new readings of children's literature and demonstrates that the genre offers sophisticated interventions into the nature boundaries and dominion of humanity

Gothic Things Jeffrey Andrew Weinstock, 2023-07-04 SHORTLISTED THE ALLAN LLOYD SMITH PRIZE FOR BEST MONOGRAPH Offering an innovative approach to the Gothic *Gothic Things* Dark Enchantment and Anthropocene Anxiety breaks ground with a new materialist analysis of the genre highlighting the ways that since its origins in the eighteenth century the Gothic has been intensely focused on ominous matter and thing power In chapters attending to gothic bodies spaces books and other objects *Gothic Things* argues that the Gothic has always been about what happens when objects assume mysterious animacy or potency and when human beings are reduced to the status of just one thing among many more powerful others In exploring how the Gothic insistently decenters the human Jeffrey Andrew Weinstock reveals human beings to be enmeshed in networks of human and nonhuman forces mostly outside of their control *Gothic Things* thus resituates the Gothic as the uncanny doppelgänger of twenty-first century critical and cultural theory lurking just beneath the surface and sometimes explicitly surfacing as it haunts considerations of how human beings interact with objects and their environment In these pages the Gothic offers a dark reflection of the contemporary nonhuman turn expressing a twenty-first century structure of feeling undergirded by anxiety over the fate of the human spectrality monstrosity and apocalypse Substituting horror for hope the Gothic Weinstock explains has been a philosophical meditation on human relations to the nonhuman since its inception raising significant questions about how we can counter anthropocentric thought in our quest to live more harmoniously with the world around us
