The Forgiveness of Others Ashraf H. A. Rushdy, 2025-05-02 The Forgiveness of Others claims that forgiveness is a complex and dynamic moral practice that raises metaphysical questions about the meaning of change and of personal identity When we forgive we are transformed from one state resentment say and one identity injured party to another state and identity someone forgiving By looking closely at various accounts of forgiving and being forgiven and of being unforgiving and unforgiven this book explores how often we find cases in which we have substitutions as well as transformations Rushdy focuses on two kinds of substitutions cases in which we have survivors who forgive on behalf of the absent injured party and cases in which we have proxies who are forgiven on behalf of the wrongdoer He contends that these substitutions help us more fully understand the dynamic conditions of forgiveness What might seem to some to be violations of the protocols of forgiveness being offered by and to others is arguably the crux of forgiveness as a moral practice that transforms those who offer and receive it in a way that represents or effects their transformation This volume advocates a pluralist approach that traces an alternative path between those who argue that forgiveness is meaningful only if it follows a particularly restrictive paradigm and those who argue that it is meaningless because it is either futile or impossible

A Psychological Inquiry into the Meaning and Concept of Forgiveness Jennifer Sandoval, 2017-02-17 This book explores the psychological nature of forgiveness for both the subjective ego and what Jung called the objective psyche or soul Utilizing analytical archetypal and dialectical psychological approaches the notion of forgiveness is traced from its archetypal and philosophical origins in Greek and Roman mythology through its birth and development in Judaic and Christian theology to its modern functional character as self help commodity relationship remedy and global necessity Offering a deeper understanding of the concept of true forgiveness as a soul event Sandoval reveals the transformative nature of forgiveness and the implications this notion has on the self and analytical psychology
