The Missing Of The Somme By Geoff Dyer:

The Missing of the Somme Geoff Dyer,1994 The author s journey of inquiry takes him from the cemeteries and one time battlefields of Flanders to the memorials that stand in every town and village in Britain from the countless poems memoirs photographs and documentaries that the Great War spawned to an old family album whose images record how this most far reaching event touched the lives of his own grandparents Relying more on personal impressions than systematic analysis Geoff Dyer weaves a network of myth and memory that illuminates our own relation to the past Jacket **The Mourner's Song** James Tatum,2018-10-30 No matter when or where they are fought all wars have one thing in common a relentless progression to monuments and memorials for the dead Likewise all art made from war begins and ends in mourning and remembrance In *The Mourner's Song* James Tatum offers incisive discussions of physical and literary memorials constructed in the wake of war from the Vietnam Veterans Memorial to the writings of Stephen Crane Edmund Wilson Tim O'Brien and Robert Lowell Tatum's touchstone throughout is the *Iliad* not just one of the earliest war poems but also one of the most powerful examples of the way poetry can be a tribute to and consolation for what is lost in war Reading the *Iliad* alongside later works inspired by war Tatum reveals how the forms and processes of art convert mourning to memorial He examines the role of remembrance and the distance from war it requires the significance of landscape in memorialization the artifacts of war that fire the imagination the intimate relationship between war and love and its effects on the ferocity with which soldiers wage battle and finally the idea of memorialization itself Because all survivors suffer the losses of war Tatum's is a story of both victims and victors commanders and soldiers women and men Photographs of war memorials in Vietnam France and the United States beautifully augment his testimonials Eloquent and deeply moving *The Mourner's Song* will speak to anyone interested in the literature of war and the relevance of the classics to our most pressing contemporary needs **The Memory of Catastrophe** Peter Gray,Kendrick Oliver,2004-09-04 Memories of catastrophes both those which occur naturally and those which are consequences of human actions loom large in the modern consciousness The volume opens with an investigation of the concepts of catastrophe and collective memory and the relationships between them Arguing that a pervasive catastrophic memory may be as disabling as it is instructive Gray and Oliver stress the necessity of rendering the phenomenon subject to secular critical inquiry The value of such an approach is then demonstrated in a series of case studies **Who Owns the Dead?** Jay D. Aronson,2016-09-06 After September 11 with New Yorkers reeling from the World Trade Center attack Chief Medical Examiner Charles Hirsch proclaimed that his staff would do more than confirm the identity of the individuals who were killed They would attempt to identify and return to families every human body part recovered from the site that was larger than a thumbnail As Jay D Aronson shows delivering on that promise proved to be a monumentally difficult task Only 293 bodies were found intact The rest would be painstakingly collected in 21 900 bits and pieces scattered throughout the skyscrapers debris This massive effort the most costly forensic investigation in U S history

was intended to provide families conclusive knowledge about the deaths of loved ones But it was also undertaken to demonstrate that Americans were dramatically different from the terrorists who so callously disregarded the value of human life Bringing a new perspective to the worst terrorist attack in U S history *Who Owns the Dead* tells the story of the recovery identification and memorialization of the 2 753 people killed in Manhattan on 9 11 For a host of cultural and political reasons that Aronson unpacks this process has generated endless debate from contestation of the commercial redevelopment of the site to lingering controversies over the storage of unclaimed remains at the National 9 11 Memorial and Museum The memory of the victims has also been used to justify military activities in the Middle East that have led to the deaths of an untold number of innocent civilians

The Palgrave Handbook of Artistic and Cultural Responses to War since 1914 Martin Kerby, Margaret Baguley, Janet McDonald, 2018-12-05 This handbook explores a diverse range of artistic and cultural responses to modern conflict from Mons in the First World War to Kabul in the twenty first century With over thirty chapters from an international range of contributors ranging from the UK to the US and Australia and working across history art literature and media it offers a significant interdisciplinary contribution to the study of modern war and our artistic and cultural responses to it The handbook is divided into three parts The first part explores how communities and individuals responded to loss and grief by using art and culture to assimilate the experience as an act of survival and resilience The second part explores how conflict exerts a powerful influence on the expression and formation of both individual group racial cultural and national identities and the role played by art literature and education in this process The third part moves beyond the actual experience of conflict and its connection with issues of identity to explore how individuals and society have made use of art and culture to commemorate the war In this way it offers a unique breadth of vision and perspective to explore how conflicts have been both represented and remembered since the early twentieth century
