

## ASSETS

**Assets** are resources owned by a business that have economic value. They are the result of investments made by the business or its owners. Assets are recorded on the balance sheet and are classified into current assets and non-current assets.

- **Current Assets:** These are assets that are expected to be converted into cash or sold within the next 12 months. Examples include cash, accounts receivable, inventory, and prepaid expenses.
- **Non-current Assets:** These are assets that are not expected to be converted into cash or sold within the next 12 months. Examples include property, plant, and equipment, and intangible assets like patents and trademarks.

Assets are measured at their fair value, which is the price that would be received from the sale of an asset in an orderly transaction between market participants at the measurement date.

## LIABILITIES

**Liabilities** are obligations of a business that arise from past transactions or events. They represent the claims of creditors against the assets of the business. Liabilities are recorded on the balance sheet and are classified into current liabilities and non-current liabilities.

- **Current Liabilities:** These are liabilities that are expected to be settled within the next 12 months. Examples include accounts payable, short-term debt, and accrued liabilities.
- **Non-current Liabilities:** These are liabilities that are not expected to be settled within the next 12 months. Examples include long-term debt and deferred tax liabilities.

Liabilities are measured at their fair value, which is the price that would be received from the sale of a liability in an orderly transaction between market participants at the measurement date.

+ RETAINED EARNINGS

### CONTRIBUTED CAPITAL

**Contributed Capital** represents the amount of capital that has been contributed by the owners of the business. It is a component of equity and is recorded on the balance sheet. Contributed capital is measured at its fair value at the time of contribution.

- **Common Stock:** This is the most basic form of contributed capital. It represents the ownership interest in the business.
- **Preferred Stock:** This is a type of contributed capital that has certain rights, such as the right to receive dividends before common stock.

ACCUMULATED PROFITS

- DIVIDENDS OR DRAWINGS

### RETAINED EARNINGS

**Retained Earnings** represent the portion of a company's profits that are retained within the company rather than being distributed to shareholders as dividends. They are a component of equity and are recorded on the balance sheet. Retained earnings are measured at their fair value at the end of the reporting period.

- **Accumulated Profits:** This is the total amount of profits that have been retained by the company since its inception.
- **Dividends or Drawings:** These are the amounts that have been distributed to shareholders or withdrawn by the owners.

## EQUITY

**Equity** represents the ownership interest in a business. It is the residual interest in the assets of the business after deducting liabilities. Equity is recorded on the balance sheet and is classified into contributed capital and retained earnings.

- **Contributed Capital:** This is the amount of capital that has been contributed by the owners of the business.
- **Retained Earnings:** This is the portion of a company's profits that are retained within the company rather than being distributed to shareholders as dividends.
