Weather on the Air Robert Henson, 2013-01-05 From low humor to high drama TV weather reporting has encompassed an enormous range of styles and approaches triggering chuckles infuriating the masses and at times even saving lives In *Weather on the Air* meteorologist and science journalist Robert Henson covers it all the people technology science and show business that combine to deliver the weather to the public each day Featuring the long term drive to professionalize weathercasting the complex relations between government and private forecasters and the effects of climate change science and the Internet on today's broadcasts With dozens of photos and anecdotes illuminating the many forces that have shaped weather broadcasts over the years this engaging study will be an invaluable tool for students of broadcast meteorology and mass communication and an entertaining read for anyone fascinated by the public face of weather *The Power of Resilience* Yossi Sheffi, 2017-03-24 How the best companies prepare for and manage modern vulnerabilities from cybersecurity risks to climate change new tools processes and organizations for developing corporate resilience A catastrophic earthquake is followed by a tsunami that inundates the coastline and around the globe manufacturing comes to a standstill State of the art passenger jets are grounded because of a malfunctioning part A strike halts shipments through a major port A new digital device decimates the sales of other brands and sends established firms to the brink of bankruptcy The interconnectedness of the global economy today means that unexpected events in one corner of the globe can ripple through the world's supply chain and affect customers everywhere In this book Yossi Sheffi shows why modern vulnerabilities call for innovative processes and tools for creating and embedding corporate resilience and risk management Sheffi offers fascinating case studies that illustrate how companies have prepared for coped with and come out stronger following disruption from the actions of Intel after the 2011 Japanese tsunami to the disruption in the money supply chain caused by the 2008 financial crisis Sheffi author of the widely read *The Resilient Enterprise* focuses here on deep tier risks as well as corporate responsibility cybersecurity long term disruptions business continuity planning emergency operations centers detection and systemic disruptions Supply chain risk management Sheffi shows is a balancing act between taking on the risks involved in new products new markets and new processes all crucial for growth and the resilience created by advanced risk management **Tornado God** Peter J. Thuesen, 2020 One of the earliest sources of humanity's religious impulse was severe weather which ancient peoples attributed to the wrath of storm gods Enlightenment thinkers derided such beliefs as superstition but in America scientific and theological hubris came face to face with the tornado nature's most violent windstorm In this groundbreaking history Peter J Thuesen traces the primal connections between weather and religion in the United States He shows that tornadoes and other storms have repeatedly drawn Americans into the profoundest of religious mysteries and confronted them with the question of their own destiny how much is self determined and how much is beyond human understanding or control *An Unfair Advantage* Juanita Tischendorf, 2015-11-04 Homicide

investigations are clearly one of the highest priorities for any state or local law enforcement agency In murder investigations many agencies follow the 72 hour rule in which officers closely investigate the first 48 hours after the homicide occurred and the 24 hours prior to the homicide The investigations success is judged by the final outcome
