

# Accounting Crash Course

This course is designed to efficiently teach accounting to students and professionals embarking on careers in finance. It is written in an easy-to-follow style that makes accounting accessible, and is filled with real-world exercises. We begin with an analysis of accounting rules and the structure and composition of key financial filings like 10Ks and 10Qs. We introduce the income statement, balance sheet, cash flow statement, and thoroughly analyze their important inter-relationships, line-by-line, all the while using real life examples.
