Gardens of Philadelphia & the Delaware Valley William M. Klein, 1995. Once mostly rolling hills and valleys covered with hardwood forest in the seventeenth century, contemporary Philadelphia and the Delaware Valley now claim the largest concentration of many of the finest public and private gardens in the world. William M. Klein explores the broader attitudes and behaviors toward nature that have influenced this development of colonial farms and gardens created for survival, to the art of suburban gardens, to nature conservatories, and public parks. Discover how in 300 years we have moved from fencing nature out to fencing nature in. Out of the past, examine the worm fence at Colonial Pennsylvania Plantations overgrown by weeds as it would have been during Colonial times, zigzagging across the fields tenuously holding back the

great forest that presses down Into the present consider the chain link fence at the John Heinz Wildlife Refuge at Tinicum that bounds a threatened wetland habitat from the intrusion of highways and reverberates to the sounds of traffic from I 95 and the Philadelphia International Airport Klein s eloquent and knowledgeable narrative include detailed portraits of forty four individual gardens all lustrously illustrated by noted garden photographer Derek Fell While considering a particular garden s historical and social influences Klein discusses the philosophy behind each garden its planner s goals and even personality and the garden s interaction with surrounding architecture This complete guide also includes each location s address phone number hours of operation events and featured plants flowers and trees Yet this book goes far beyond the usual guides in this search for answers to the perennial questions of how and why each generation struggles to define its place in nature As we approach the twenty first century the garden has become the metaphor for how we must begin to view all nature today tended space where we collect name nurture and share our love of plants Author note Formerly Director of the Morris Arboretum of the University of Pennsylvania Dr William M Klein Jr is Executive Director of the National Tropical Botanical Garden in Lawai Hawaii In 1993 he was presented with the American Horticultural Society s Professional Award and has been a Fellow of the American Association for the Advancement of Science since 1989 He has published many important writings on nature botany and landscape including his previous book The Vascular Flora of Pennsylvania Annotated Checklist and Atlas Derek Fell is a widely published garden photographer and the author of more than 50 garden books and garden calendars
