Personification About The Rainforest:

Descriptive Writing Tara McCarthy, 1998 Mini lessons strategies and activities help students improve their descriptive writing skills **Animism in Rainforest and Tundra** Marc Brightman, Vanessa Elisa Grotti, Olga Ulturgasheva, 2012-08-01 Amazonia and Siberia classic regions of shamanism have long challenged western understandings of man's place in the world. By exploring the social relations between humans and non-human entities credited with human-like personhood not only animals and plants but also things such as artifacts, trade items or mineral resources from a comparative perspective this volume offers valuable insights into the constitutions of humanity and personhood characteristic of the two areas. The contributors conducted their ethnographic fieldwork among peoples undergoing transformative processes of their lived environments such as the depletion of natural resources and migration to urban centers. They describe here fundamental relational modes that are being tested in the face of change presenting groundbreaking research on personhood and agency in shamanic societies and contributing to our global understanding of social and cultural change and continuity.

Environmental Communication Anabela Carvalho, Tarla Rai Peterson, 2024-12-30 This handbook reviews extant research and offers critical summaries of key topics and issues in the field enriched by authoritative analyses of specific cases and examples. It displays pluralism across a number of axes: epistemological, theoretical, geographical, cultural and thematic. The first part offers historical routes through the international development of the field and explores the epistemological grounds of multiple strands of environmental communication studies. In aiming to map the field broadly as well as stimulating new thinking, the second part is organized along three core perspectives: arenas, voice and place. It comprises chapters on various public spaces that are critical to the symbolic constitution of the environment and sheds light on a range of aspects and social agents that have received insufficient attention including research about and carried out in non-Western countries. Crucially at a time of profound environmental crisis the final part of this book discusses possibilities and constraints to social change and the potential contributions of environmental communication research to ways of understanding and responding to the challenge.

Return of the Thunderbeings Iron Thunderhorse, Donn LeVie, 1990 *God in the Rainforest* Kathryn T. Long, 2019-01-22 Set in the jungles of Amazonian Ecuador *God in the Rainforest* tells the story of an iconic evangelical mission. Beginning in 1956 with the deaths of five young Americans at the hands of the Waorani people the book explores the aftermath of this incident as well as the ongoing complexities of Waorani missionary interaction. **Shamanism and Violence** Davide Torri, 2016-04-01 Proposing a new theoretical framework this book explores Shamanism's links with violence from a global perspective. Contributors renowned anthropologists and authorities in the field draw on their research in Mongolia, China, Korea, Malaysia, Nepal, India, Siberia, America, Papua New Guinea, Taiwan to investigate how indigenous shamanic cultures dealt and are still dealing with varying degrees of internal and external violence. During ceremonies shamans act like hunters and warriors dealing with many states related to violence such as collective and individual suffering.

attack conflict and antagonism Indigenous religious complexes are often called to respond to direct and indirect competition with more established cultural and religious traditions which undermine the sociocultural structure the sense of identity and the state of well being of many indigenous groups This book explores a more sensitive vision of shamanism closer to the emic views of many indigenous groups *Rainforest Shamans* Gerardo Reichel-Dolmatoff,1997 Anthropologist Reichel Dolmatoff spent most of his working life among tribes living in the vast rainforests of the Colombian Northwest Amazon This collection of essays considers the Tukano Indians and their society Many of the essays are concerned with the role of shamanism in Tukanoan society including initiation practices and their curing spells which show the Tukanoan concepts of illness and its cure Other essays describe their concepts of universal energies and the ways they can be balanced and the ecological dimensions of their world view **Metaphor and Argumentation in Climate Crisis Discourse** Anaïs Augé,2023-06-28

This volume sheds light on the argumentative role of metaphor in climate change discourse unpacking the ways in which stakeholders use specific metaphors to influence perceptions of the climate crisis While existing research has explored the explanatory function of metaphors in communication on climate change this book offers an alternative view one which posits that metaphors can go beyond disseminating scientific observations to promoting biases in the depiction of these observations Aug analyses oft used ideas in climate change communication such as greenwashing drawn from a wide ranging corpus spanning media discourse scientific discourse NGO communications political speech and social media messages in English The book presents an overview of different arguments conveyed through metaphors around five key themes climate change mitigation the evolution of climate change global and local effects the significance of climate change in specific countries and the relationship between climate change and other contemporary social issues The volume highlights how the complexity of climate change often necessitates the use of metaphor and the value of further research on the argumentative function of metaphor in elucidating its ideological dimensions in climate crisis discourse This book will be of interest to scholars in discourse analysis corpus linguistics cognitive linguistics and environmental communication *THE VELDT*
