**Analysing Community Work: Theory and Practice** Keith Popple,2015-04-16 Community work is a unique and important activity that has the potential to help individuals groups and communities achieve change This brand new update

of an established and acclaimed text explores and analyses different theoretical approaches to community work. Written in a highly accessible style, this book is grounded in practice issues and tackles political and theoretical issues head on. New to the second edition: Analysis of the work of New Labour; Consideration of Coalition government policies for example the Big Society project and the impact of budget cuts; A new international dimension throughout the text and an important new chapter on international community work; New definitions of community explored to take into account a diverse population; Increased emphasis on community work values, skills and challenges; Updated pedagogy including end of chapter summaries and reflective questions; References the latest writings in the field. Written by an established international expert, this book will be valuable for students on qualifying programmes, practitioners, policy makers and commentators and those engaged in community work in all capacities. *Analysing Community Work* provided a key text tackling issues of theory and practice in accessible ways for some two decades. This second edition builds upon the strengths of the first, updating the book to take account of the major changes that have been taking place since then, both in Britain and internationally. Popple's critical consideration of the impacts of globalization, neo liberalism, changing technologies, increasing inequalities and increasing concerns with environmental issues will be particularly welcomed. This edition will be essential reading for those who read and appreciated the first as well as for a new generation of readers. Marjorie Mayo, Emeritus Professor of community development, Goldsmiths University of London, UK. Popple's book was one of the key overviews of British community work when it first appeared in 1995. In the last few years, the need for a revised and updated version has been increasingly obvious and Popple has now obliged. The last twenty years have seen substantial changes in the political, economic and organisational context within which community work operates and Popple has fully reflected this whilst remaining clear about its basic tenets and goals. This is a highly welcome addition to contemporary community work literature. Gary Craig, Professor of Community Development and Social Justice, Durham University, UK. Media Today Joseph Turow, 2011-09-22. *Media Today* puts students at the center of the profound changes in the twenty-first century media world, from digital convergence to media ownership, and gives them the skills to think critically about what these changes mean for the role of media in their lives. *Media Today*, Fourth Edition, is built around four key concepts. A media systems approach allows students to understand the interconnected cultural, political and economic forces that shape media they encounter every day. Unique insights into media trends give students an insider's perspective on how media industries are responding to changes from globalization to social networking. Focus on digital convergence shows in each chapter how digital media is transforming traditional mass media such as newspapers, magazines and television. A media literacy goal encourages and builds critical skills to make students more informed and engaged citizens in our media-driven society. Completely revised with updated examples, new case studies and new online video resources, the 4th edition of *Media Today* connects the latest trends, debates and technologies to the history of media, highlighting the impact and meaning of today's changes to the media landscape.
