Constructing a System of Irregularities Chee Lay Tan, 2015-11-25 This book investigates the poetics of three of the most internationally renowned contemporary Chinese poets Bei Dao Yang Lian and Duoduo who were all exiled from China after the 1989 Tiananmen student movement Their poetry was later to be labelled Misty poetry Menglongshi Emphasising polyvalent imagery and irregular syntax Misty poetry engenders a multiplicity of meanings often leading to interpretational indeterminacy This book examines three aspects of the Mistiness of the poets oeuvre the socio historic background where Misty poets live and write imagery and linguistic elements After first identifying the roots of Mistiness this book identifies imagistic and linguistic clues in order to construct a hermeneutical system that examines the irregularities of the Misty poetics and appreciates the polysemy of the poets works Stylometry is used to analyse image frequency and its significance in a stylistic manner and a semiotic approach is then systematically applied to analyse the poets highly irregular images syntax and the different effects of their poems obscurity Through these approaches that unveil the poems evocativeness the irregularity of the poetry s Mistiness is established as its most powerful linguistic and imagistic aspect The book then places the three poets different misty characteristics into contrast Bei Dao s twisted imagery and elliptical syntax Yang s imagery in a classically inspired syntax and Duoduo s integration of images into a rhythmic syntax While the poets progressions from pre to post exile poetics suggest the potential of a non nationally specific or borderless poetics their seemingly irregular poetic Mistiness is the most powerful trait of Misty poetry for evoking its system of multifaceted significations and alternative aesthetics

What Is World Literature? David Damrosch, 2018-06-05 World literature was long defined in North America as an established canon of European masterpieces but an emerging global perspective has challenged both this European focus and the very category of the masterpiece The first book to look broadly at the contemporary scope and purposes of world literature What Is World Literature probes the uses and abuses of world literature in a rapidly changing world In case studies ranging from the Sumerians to the Aztecs and from medieval mysticism to postmodern metafiction David Damrosch looks at the ways works change as they move from national to global contexts Presenting world literature not as a canon of texts but as a mode of circulation and of reading Damrosch argues that world literature is work that gains in translation When it is effectively presented a work of world literature moves into an elliptical

space created between the source and receiving cultures shaped by both but circumscribed by neither alone Established classics and new discoveries alike participate in this mode of circulation but they can be seriously mishandled in the process From the rediscovered Epic of Gilgamesh in the nineteenth century to Rigoberta Menchú's writing today foreign works have often been distorted by the immediate needs of their own editors and translators Eloquently written argued largely by example and replete with insightful close readings this book is both an essay in definition and a series of cautionary tales
