A Second Classroom Parent Teacher Relationships In A Waldorf School:

A Second Classroom Torin M. Finser, 2014-08-26 What does a healthy successful school look like Is it all about measurable outcomes test scores and pass fail grades set by the government Can learning be quantified in short term measurements or does real learning take years to manifest in a career or biography All seem to agree that a healthy school is also a community and that community depends on the quality of relationships chiefly the relationships among students teachers and parents This book features a comprehensive examination of the parent teacher relationship in all its dimensions from parent evenings and conferences to communication conflict and the life cycle of parent involvement in their school In between the chapters on practical advice are sections that consider the issues from a deeper spiritual dimension This book is intended to stimulate conversation self reflection and relational practices that awaken community life in and around our schools

Guided Self-Study Torin Finser, 2015-08-01 First one might ask Why not just read the first three books After all Rudolf Steiner wrote them in such a way that the very act of reading them can awaken new faculties Who could ever duplicate that It might even seem presumptuous to select passages from books that were constructed by an initiate To those who have these and other objections I have the following response My hope is that the pages in this book serve as an invitation so that those who work with this material will then be motivated to go to the original texts and work with them more intensively Torin Finser
