A Short History of England Gilbert Keith Chesterton, 2017 Chesterton in his unimitable way remarks that the only way to write a popular history is to write it backwards This is somewhat the method he employs in his book A Short History of England in which he aims to show the importance of the populace in history an importance that is wholly neglected by historians England he asserts was created not so much by the death of the ancient Roman civilization as by its escape from death or by its refusal to die For four hundred years Britain was wholly Roman in its civilization Medieval civilization arose out of the resistance to the naked barbarians from the North and the more subtle barbarians from the East The crisis in English history he argues was not the period of the Stuarts but the fall of Richard II following his failure to use medieval despotism in the interests of medieval democracy Mr Chesterton portrays the democracy of the Middle Ages this civilization being the creation really of the people through their guilds and through monasticism which was a democratic institution which the Reformation destroyed
