A Very Thin Line The Iran Contra Affairs

Gordon Arnold

A Very Thin Line The Iran Contra Affairs:

A Very Thin Line Theodore Draper, 1991 A reconstruction of the events of the Iran contra affairs The Iran-Contra Affair Lisa Klobuchar, 2008 Discusses the Iran Contra scandal of 1986 wherein the Reagan administration sold guns to Iran in exchange for hostages and assisted the rebels trying to overthrow the government of Nicaragua Reagan and the Iran-Contra Affair Robert Busby, 2016-07-27 The Iran Contra scandal rocked the Reagan presidency to its core in late 1986 and 1987 This text examines the efforts of the Reagan administration to recover its public credibility in the 12 months following the exposure of controversial covert operations Via comparative analysis it explores the impact of scandal upon the presidential office the problems which confronted President Reagan during Iran Contra and the centrality of damage control efforts to the well being of the modern presidency **When Presidents Lie** Eric Alterman, 2005-10 Assesses the impact of governmental and presidential lies on American culture revealing how such lies become ever more complex and how such deception creates problems far more serious than those lied about in the beginning **Exit with Honor** William E Pemberton, 2015-03-04 Few presidents have sparked as much interest in recent years as Ronald Reagan already the subject of a large number of biographies and specialized subjects This biography based on recent research into the Reagan archives and synthesis of the large memoir literature explores the shaping of his values and beliefs during his childhood in the American heartland his leadership of the American conservative movement and his successful political career culminating in the first two term presidency since Dwight Eisenhower Pemberton finds Reagan's personal career and ability to understand and communicate with the American people admirable but finds many of the long term effects of his presidency harmful

The Hidden Hand Richard H. Immerman, 2014-04-07 THE HIDDEN HAND Since its inception in 1947 the Central Intelligence Agency has played an outsized role in the political life of the United States whether by formulating and implementing policy or by fueling popular culture and imagination The Hidden Hand is an accessible and up to date history of the agency that succinctly takes the reader from its early days of intelligence gathering and analysis to its more recent involvement in the execution of foreign policy through covert operations psychological warfare and other programs In manageable chapters and easy to digest prose the author a respected scholar who has researched intelligence for more than 30 years and also served as a high ranking officer in the intelligence community covers all aspects of the CIA from its mission to its performance to its record He draws on the latest evidence and research to assess the agency's successes and failures over the last half century highlighting key operations of the past and present Throughout his assessment is balanced and thorough with an eye on the complex and controversial nature of the subject This is a masterful account that demythologizes the CIA's role in America's global affairs while addressing its integral place within American political and popular culture

Dirty Tricks or Trump Cards Roy Godson, 2011-12-31 Contrary to popular misconceptions and public branding as dirty tricks covert action and counterintelligence can have considerable value Democracies while wary of these instruments have

benefited significantly from their use saving lives treasure and gaining strategic advantage As liberal democracies confront the post Cold War mix of rogue states and non state actors such as criminals and terrorists and weapons of mass destruction and mass disruption these clandestine arts may prove to be important tools of statecraft and perhaps trump cards in the twenty first century Godson defines covert action as influencing events in other parts of the world without attribution and counterintelligence as identifying neutralizing and exploiting the secret activities of others Together they provide the capability to resist manipulation and control others to advantage Counterintelligence protects U S military technological and diplomatic secrets and turns adversary intelligence to U S advantage Covert action enables the United States to weaken adversaries and to assist allies who may be hampered by open acknowledgment of foreign support Drawing on contemporary and historical literature broad ranging contacts with senior intelligence officials in many countries as well as his own research and experience as a longtime consultant to the U S government Godson traces the history of U S covert action and counterintelligence since 1945 showing that covert action works well when it is part of a well coordinated policy and when policy makers are committed to succeeding in the long term Godson argues that the best counterintelligence is an offensive defense His exposition of the essential theoretical foundations of both covert action and counterintelligence supported by historical examples lays out the ideal conditions for their use as well as demonstrating why they are so difficult to attain This book will be of interest to students and general readers interested in political science national security foreign policy and military policy Reflections on Our Constitutional Mission Harold Norris,1997 *Less Than Meets the Eye* Barbara Hinckley,1994-06 Focusing on cases involving major military action foreign aid authorization and key controversial votes in both legislative branches Hinckley shows that appearances to the contrary Congress more often than not votes with the President and has done so for the last few decades Despite occasional flurries of activity on carefully chosen symbolic issues most foreign policy issues never even make the Congressional agenda Those that do are often dispatched with demands for reports that are left unread or with tough restrictions having built in escape provisions Both branches Hinckley argues encourage this image of conflict and profit from the symbolic political capital it produces This process comes to light in her analysis of aid to Nicaragua What Hinckley reveals is sharply at odds with conventional wisdom and unflattering to both the executive and the legislative branches of government More than a critical reassessment this book also proposes reforms than might result in real congressional participation in the making of foreign policy With its insight into how our system of checks and balances works and doesn t this book takes a first step toward making the peoples representatives accountable for crucial American interests in foreign matters The Afterlife of America's War in Vietnam Gordon Arnold,2014-12-09 The fall of Saigon in 1975 signaled the end of America s longest war Yet in many ways the conflict was far from over Although the actual fighting ended the struggle to find political justification and historical vindication for the Vietnam War still lingered in American consciousness A plethora of images from America s first televised war has kept the conflict all too fresh in the

memories of those who lived through it while creating a confusing picture for a younger generation The political process of attaching meaning to historical events has ultimately failed due to the lack of consensus then and now regarding events surrounding the Vietnam War Reviewing the record of American politics film and television this volume provides a brief overview of the war s appearance in American popular culture It examines the ways in which this conflict has consistently resurfaced in social and political life especially in the arena of contemporary world events such as the Soviet incursion into Afghanistan the Gulf War and the 2004 presidential campaign To this end the work explores the contexts and uses of the Vietnam War as a recurring subject The circumstances and symbolism used in the rhetoric of the political elite and the news media including the New York Times the Washington Post Time and Newsweek are discussed Emphasis is also placed on the role of film and television as the book examines movies such as The Deer Hunter and Apocalypse Now and TV series such as M A S H In weaving together the political and screen appearances of the Vietnam War the book reexamines the influence of a major episode in American history

The Law of the Executive Branch Louis Fisher,2014 The Law of the Executive Branch Presidential Power places the law of the executive branch firmly in the context of constitutional language framers intent and more than two centuries of practice Each provision of the US Constitution is analyzed to reveal its contemporary meaning and in concert with the application of presidential power

Encyclopedia of the United States Congress Robert E. Dewhirst,John David Rausch,2014-05-14 Presents an A to Z reference guide to individuals events and terms of importance to the United States Congress

Presidential Commissions & National Security Kenneth Kitts,2006 Kenneth Kitts offers entry into the highly political behind closed doors world of blue ribbon investigative commissions convened in the aftermath of national security crises Ranging from Pearl Harbor to the September 11 terrorist attacks Kitts takes the reader into the backroom to watch as presidents their advisers and commission members confront an armory of pressures With rich detail and accounts of political intrigue he reveals just how and when presidents reach for the blue ribbon option to try to defuse crises deflect criticism and maintain control of national security policy and how presidential expectations are sometimes unmet as commissions issue damning reports with unforeseen and explosive consequences

The Reagan Revolution IV: From Victory to the New World Order Richard C. Thornton,2013-08-06 History of Reagan s victory over the Soviet Union in the Cold War and his defeat at the hands of his domestic political opponents who sought accommodation with Moscow over victory The book traces the climax of a two decade long struggle within the American establishment over strategy known as the Iran Contra scandal As detailed in this volume the scandal masked both the president s political defeat and the fundamental change that occurred in American national security strategy

The Nightingale's Song Robert Timberg,1996-09-11 How the legacy of the Vietnam War changed the lives of five Naval Academy graduates John McCain Oliver North Robert McFarlane John Poindexter and James Webb

Middle Eastern Terrorism Mark Ensallaco,2012-04-17 Selected by Choice magazine as an Outstanding Academic Title Since the first airplane hijacking by the Popular Front for the

Liberation of Palestine in September 1970 Middle Eastern terrorists have sacrificed innocent human lives in the name of ideology From Black September to the Munich Olympics to the embassy bombing in Beirut to the devastating attacks of September 11 and beyond terrorism has emerged as the most important security concern of our time Where did this come from Inspired by a student's question on the morning of September 11 2001 Mark Ensarico has written a thoroughly researched narrative account of the origins of Middle Eastern terrorism addressing when and why terrorists started targeting Americans and American interests and what led to the September 11 attacks Ensarico reveals the changing of motivations from secular Palestinian nationalism to militant Islam and demonstrates how competition among terrorists for resources and notoriety has driven them to increasingly extreme tactics As he argues terrorist attacks grew from spectacle to atrocity Drawing on popular works and scholarly sources Middle Eastern Terrorism tells this story in rich detail and with great clarity and insight

Presidents and Civil Liberties from Wilson to Obama Samuel Walker, 2012-04-16 This book is a history of the civil liberties records of American presidents from Woodrow Wilson to Barack Obama It examines the full range of civil liberties issues First Amendment rights of freedom of speech press and assembly due process equal protection including racial justice women's rights and lesbian and gay rights privacy rights including reproductive freedom and national security issues The book argues that presidents have not protected or advanced civil liberties and that several have perpetrated some of worst violations Some Democratic presidents Wilson and Roosevelt moreover have violated civil liberties as badly as some Republican presidents Nixon and Bush This is the first book to examine the full civil liberties records of each president thus placing a president's record on civil rights with his record on national security issues and also to compare the performance on particular issues of all the presidents covered

Presidents and Political Scandal Richard P. Barberio, 2020-07-18 This book explores presidential power through an analysis of the ways that U S presidents attempt to manage scandals While presidents routinely stonewall to block or limit investigations into their alleged transgressions or in some cases cooperate with investigators this book proposes the existence of a third way of responding to scandals a backfire or the creation of a counter scandal to try to extinguish the original scandal The existence of possible backfires is surveyed through case studies of the major scandals that impacted the Nixon Reagan Clinton and Trump administrations The development of this form of scandal response has meaningful implications concerning the growth of presidential power and its impacts on the functioning of the U S political system and the quality of American democracy Changes in partisanship the media environment and the public's view of the presidency and government are topics covered in the book's explanation of the trends in scandal responses

The Age of Impeachment David E. Kyvig, 2008 A Bancroft Prize winning historian chronicles the modern history of impeachment and the shift in American politics and constitutional culture revealed by its evolving interpretation and use

Reagan, Bush, Gorbachev Norman A. Graebner, Richard Dean Burns, Joseph M. Siracusa, 2008-06-30 Chronicles the evolution of the political relationship between Reagan and Mikhail Gorbachev and that

relationship s role in ending the Cold War
