## **A Thousand Blunders The Grand Trunk Pacific Railway And Northern British Columbia:**

**A Thousand Blunders** Frank Leonard, 2011-11-01 During the first two decades of this century the Grand Trunk Pacific Railway played an important part in the development of the north central corridor of British Columbia. The GTP which ran from Winnipeg via the Yellowhead Pass and Edmonton to Prince Rupert on the northwest coast was built to supplant the Canadian Pacific line to Vancouver. The B.C. line was the most expensive and least remunerative of its sections and contributed ultimately to the company's collapse in 1919. In *A Thousand Blunders* Frank Leonard looks at why the Road of a Thousand Wonders failed to live up to the expectations forecast by company president Charles M. Hays and other senior managers. Not only was the railway built through a sparsely settled region which generated little immediate traffic but its economic difficulties were also compounded by the numerous mistakes made by managers at all levels. For example, their failure to respond adequately to labour shortages caused serious delays and prevented the company from proving Prince Rupert as an effective alternative harbour before World War I broke out. For this book Frank Leonard had access to a wealth of original documents among them the GTP legal department files providing him with insights into the decisions that formed the basis for policies in townsites and on Indian reserves. *A Thousand Blunders* is a provocative account of one of the greatest failures in Canadian entrepreneurial history. Richly detailed and thoroughly documented it makes an important contribution to the fields of railway and business history as well as to the study of the history of northern British Columbia. **"A**

**Thousand Blunders"** Leonard Frank, 1988 *The Notorious Georges* Jonathan Swainger, 2023-10-15 Boozy and boisterous. The Georges, the communities of South Fort George and Fort George that ultimately became Prince George, acquired a seedy reputation for a century at times branded the dubious title of Canada's most dangerous city. Is Prince George really such a bad lad? *The Notorious Georges* explores how the pursuit of respectability collided with caricatures of a riotous settlement frontier in its early years. Anxious about being marginalized by the provincial government and venture capitalists, municipal leaders blamed Indigenous and mixed heritage people, non-preferred immigrants and transient labourers for local crime. Jonathan Swainger combs through police and legal records, government publications and media commentary to demonstrate that the disorder was not so different from the rest of the province and respectable white residents were often to blame. This lively account tells us about more than a particular community's identity. It also sheds light on small town disaffection in modern Canada.

**Birth of A City: Prince Rupert To 1914** Sue Harper Rowse, 2005-09-14 On March 10th 2010 Prince Rupert will be celebrating its 100th Birthday. Carved from the wilderness it was envisioned in 1905 by Charles Hays, Manager of the Grand Trunk Pacific Railway, that this northern BC city would rival that of Vancouver in just a few short years. From the first landing of surveyors on the shores of Kaien Island to the construction of the Grand Trunk Pacific Railway, Knoxville's building of the townsite on stilts and planks, development of a huge fishing industry and port. This volume leads you through an era of human struggle, determination and dreams of what the future could bring. It is the amazing story of Prince Rupert.

and its pioneers between 1905 and 1914 who battled against all odds to develop this unique northern community Packed with interesting information and early photographs this volume is a delightful journey through time *Railroad Nation* Carlos Arnaldo Schwantes,2025-05-15 From passenger tickets wall calendars and advertising posters to train orders and bills of lading railroads have left a colorful paper trail across America In *Railroad Nation* historian Carlos Arnaldo Schwantes examines a fascinating array of these materials showcasing the railroad industry s incredible variety of eye catching illustrations to enliven their timetables and promotional brochures Schwantes traces the evolution of railroad commercial art from drab black and white broadsides and text only advertisements that the early railroads placed in local newspapers to the riotous m lunge of color graphics in the early twentieth century when the visual appeal of public timetables and their thousands of different brochures enticed settlers to create farms ranches and towns alongside newly laid tracks *Railroad Nation* offers readers an unparalleled look at the ephemera of the railroad industry highlighting the vibrant history of railroading in America through its rich tapestry of visual materials *Boundless Optimism* Patricia E. Roy,2012-11-01 Patricia E Roy is the winner of the 2013 Lifetime Achievement Award Canadian Historical Association The first decade and a half of the twentieth century was mostly a time of unprecedented prosperity and growth in British Columbia Although its colonial history was still etched in the public psyche BC was coming into its own as a province of Canada and starting to realize the untapped economic potential of its natural resources Richard McBride served four terms as BC s premier from 1903 to 1915 building a reputation as a charismatic and optimistic leader whose vision of a modern industrialized and wealthy province helped shape BC s institutions and its place in the British world McBride stabilized the legislature by introducing party lines promoted provincial causes in Ottawa and above all encouraged new railways His fight for Better Terms and his association with leading federal Conservatives made him a national figure while his support of the Imperial navy and British investment brought him attention in London and a knighthood *Boundless Optimism* chronicles the brilliant career of this often overlooked leader and the province he helped create **Resource Communities in a Globalizing Region** Paul Bowles,Gary N. Wilson,2015-12-14 Northern British Columbia has always played an important role in Canada s economy but for many Canadians it also existed as an almost forgotten place a vast territory where only a few roads some railroad tracks and a ferry system connected small cities towns and villages to the outside world Now as the global appetite for oil gas hydroelectricity wood and minerals intensifies this resource rich and geographically important region is being pulled onto the national and international economic stages As debates around pipelines mines and hydroelectric projects intensify in local coffee shops distant boardrooms and the halls of Parliament this timely volume examines the connections and tensions between resource communities and global market forces illuminating how governments Aboriginal peoples organized labour NGOs and the private sector are adapting to resisting and embracing change *Manitoba Law Journal Special Issue: Essays in Legal History in Honour of DeLloyd J. Guth - 2020 Volume 43(1)* , The *Manitoba Law Journal* is a peer

reviewed journal founded in 1961 The MLJ's current mission is to provide lively independent and high caliber commentary on legal events in Manitoba or events of special interest to our community This issue has articles from a variety of contributing authors

**Investing in Place** Sean Markey, Greg Halseth, Don Manson, 2012-08-01 The future of northern British Columbia a vast resource rich region of vibrant cultures and diverse communities could be either driven by a narrow economic agenda or guided by innovative place based solutions that seek to build viable communities and resilient local and regional economies Investing in Place is about creating the foundations for renewing northern British Columbia's rural and small town economies Markey Halseth and Manson argue that renewal is not about nostalgic reliance on the policies and economic strategies of the past rather it is about building a pragmatic and innovative vision for development one that acknowledges both the opportunities and the challenges posed by resource development and global and technological change For policy makers and residents alike the path to renewal lies in place based development which consists of people working together at all levels of the community and region to take advantage of local opportunities in a sustainable responsible way

**Done** Hamar Foster, Heather Raven, Jeremy Webber, 2011-11-01 In the early 1970s many questioned whether Aboriginal title existed in Canada and rejected the notion that Aboriginal peoples should have rights different from those of other citizens But in 1973 the Supreme Court of Canada issued a landmark decision in the Calder case confirming that Aboriginal title constituted a right within Canadian law Let Right Be Done examines the doctrine of Aboriginal title thirty years later and puts the Calder case in its legal historical and political context both nationally and internationally With its innovative blend of scholarly analysis and input from many of those intimately involved in the case this book should be essential reading for anyone interested in Aboriginal law treaty negotiations and the history of the BC Indian land question **Making**

**Vancouver** Robert A.J. McDonald, 2011-11-01 Making Vancouver explores social relationships in Vancouver from 1863 to 1913 It considers how urbanization structured social boundaries among Burrard Inlet s increasingly large population and is premised on the belief that in studying social boundaries historians must abandon single category forms of analysis and build into their research strategies the capacity to explore complexity Robert McDonald thus traces the relationship between the two forms of identify class and status for the whole of Vancouver society The book starts with the years when settlement on Burrard Inlet centred around two lumber mills explores periods of elite dominance of city institutions and then of growing social and political conflict following the arrival of the railway examines the heightening of class tensions at the turn of the century charts economic growth during the boom years before the war and concludes with three chapters on the tripartite status hierarchy that emerged in concert with that of a class dichotomy It reveals a western city that was neither egalitarian nor closed to opportunity Vancouver up to the pre war crash of 1913 was open and dynamic The rapidity of growth easy access to resources narrow industrial base and influence of ethnicity and race softened the thrust towards class division inherent in capitalism Far more powerful in directing social relations was the quest for status creating a social structure that was no less hierarchical than that predicted by class theory but much more fluid The social boundary that separated the working class from others is revealed as a division that for much of the pre war boom period divided Vancouver society more fundamentally than the boundary separating labour from capital **Indigenous Legalities, Pipeline Viscosities** Tyler

McCreary, 2024-04-02 Indigenous Legalities Pipeline Viscosities examines the relationship between the Wet suwet en and hydrocarbon pipeline development showing how colonial governments and corporations seek to control Indigenous claims and how the Wet suwet en resist Tyler McCreary explores pipeline regulatory review processes reviews attempts to reconcile Indigeneity with development and asks fundamental questions about territory and jurisdiction In the process he offers historical context for the continuing influences of colonialism on Indigenous peoples Throughout McCreary demonstrates how the cyclical movements between resistance and reconciliation are affected by the unequal relations between Indigenous peoples colonial governments and development operations This sophisticated analysis invites readers to consider the complex realities of Indigenous and Wet suwet en law as well as the politics of pipeline development *Colonizing Bodies* Mary-Ellen Kelm, 1998 Recent debates about the health of First Nations peoples have drawn a flurry of public attention and controversy and have placed the relationship between Aboriginal well being and reserve locations and allotments in the spotlight Aboriginal access to medical care and the transfer of funds and responsibility for health from the federal government to individual bands and tribal councils are also bones of contention Comprehensive discussion of such issues however has often been hampered by a lack of historical analysis *Colonizing Bodies* examines the impact of colonization on Aboriginal health in British Columbia during the first half of the twentieth century Mary Ellen Kelm explores how Aboriginal bodies were materially affected by Canadian Indian policy which placed restrictions on fishing and hunting allocated inadequate reserves forced children into unhealthy residential schools and criminalized Indigenous healing She goes on to consider how humanitarianism and colonial medicine were used to pathologize Aboriginal bodies and institute a regime of doctors hospitals and field matrons all working to encourage assimilation Finally Kelm reveals how Aboriginal people were able to resist and alter these forces in order to preserve their own cultural understanding of their bodies disease and medicine **Passenger and Merchant Ships of the Grand Trunk Pacific and Canadian Northern Railways** David R.P. Guay, 2016-07-02 The first detailed account of the rise and fall of the maritime branches of two of Canada's great transcontinental railways of the early twentieth century the Grand Trunk Pacific and Canadian Northern **BC Studies**, 1996 *Empire's Tracks* Manu Karuka, 2019-01-29 *Empire's Tracks* boldly reframes the history of the transcontinental railroad from the perspectives of the Cheyenne Lakota and Pawnee Native American tribes and the Chinese migrants who toiled on its path In this meticulously researched book Manu Karuka situates the railroad within the violent global histories of colonialism and capitalism Through an examination of legislative military and business records Karuka deftly explains the imperial foundations of U S political economy Tracing the shared paths of Indigenous and Asian American histories this multisited interdisciplinary study connects military occupation to exclusionary border policies a linked chain spanning the heart of U S imperialism This highly original and beautifully wrought book unveils how the transcontinental railroad laid the tracks of the U S Empire *The Historiography of the Provincial Norths* Lakehead University.
