A Time To Fight Reclaiming A Fair And Just America:

A Time to Fight Jim Webb, 2008-05-19 I m the only person in the history of Virginia elected to statewide office with a Union card two Purple Hearts and three tattoos Jim Webb the bestselling author and now the celebrated outspoken U S Senator from Virginia presents a clear eyed hard hitting plan of attack for putting government to work for the people rather than special interests and for restoring the country's standing around the world Infused with the intelligence force and firebrand style that has earned Senator Jim Webb enormous national attention from his earlest days in office A Time to Fight offers a thorough and provocative assessment of the thorniest issues Americans face today along with cogent solutions drawn from Webb's lifetime of experience as a much decorated Marine a widely traveled award winning journalist and novelist a highly placed member of the Reagan administration a Senator with a son who fought as a Marine in Iraq and perhaps most important a proud scion of America's vast but frequently ignored working class Webb exposes how America has entered a dangerous unprecedented cycle of seemingly unsolvable unknowns Our economic policies particularly in this age of globalization have produced widely divergent results leading to a country calcifying along class lines Our demographic makeup has been altered dramatically and is set to keep on changing through both legal and illegal immigration Our editorialists and politicians talk about the American dream and some urge us to bring democracy to the rest of the world But more than two million Americans are now in prison by far the highest incarceration rate in the so called advanced world Our foreign policy is confused without clear direction increasingly vulnerable to such largely unexamined long term threats as China's emerging power while it has become bogged down in the never ending struggles of the Middle East As this drift toward societal regression has taken place America's leadership has largely been paralyzed unable or unwilling to stop the slide Where are the leaders Webb asks Has our political process become so compromised by powerful interest groups and the threat of character assassination that even the best among us will not dare to speak honestly about the solutions that might bring us back to common sense and fundamental fairness Through vivid personal narratives of the struggles members of his family faced and citing the courageous actions of presidents ranging from Andrew Jackson to Teddy Roosevelt to Dwight Eisenhower A Time to Fight provides specific viable ideas for restoring fairness to our economic system correcting the direction of national security efforts ending America's military occupation of Iraq and developing greater government accountability Webb brings a fresh perspective to political dynamics that have shaped our country His stirring populist manifesto calls upon voters to make the choices that will change America for the better in this election season I Heard My Country Calling James Webb, 2014-05-20 In this brilliantly received memoir former senator James Webb has outdone himself It is rare in America that one individual is recognized for the highest levels of combat valor as a respected member of the literary and journalistic world and as a blunt spoken leader in national politics In this extraordinary memoir Webb writes vividly about the early years that shaped such a remarkable personal journey Webb's mother grew up in the poverty stricken

cotton fields of East Arkansas His father and lifetime hero was the first in many generations of Webbs whose roots are in Appalachia to finish high school He flew bombers in World War II and cargo planes in the Berlin Airlift graduated from college in middle age and became an expert in the nation's most advanced weaponry Webb's account of his childhood is a tremendous American saga as the family endures the constant moves and challenges of the rarely examined post World War II military with a stern but emotionally invested father a loving mother who had borne four children by the age of twenty four a granite like grandmother who held the family together during his father's frequent deployments and a rich assortment of aunts siblings and cousins Webb tells of his four years at Annapolis in a voice that is painfully honest but in the end triumphant His description of Vietnam's most brutal battlefields breaks new literary ground One of the most highly decorated combat Marines of that war he is a respected expert on the history and conduct of the war Webb's novelist's eyes and ears invest this work with remarkable power whether he is describing the resiliency that grew from constant relocations during his childhood the longing for his absent father his poignant good bye to his parents as he leaves for Vietnam his role as a twenty three year old lieutenant through months of constant combat or his election to the Senate where he was a leader on national defense foreign policy and economic fairness This is a life that could happen only in America The Upper House Terence Samuel, 2025-09-23 They come to Washington for varied and complex reasons driven perhaps by some deep emotional commitment to an issue or believing that their time in Congress can make their dream of the presidency a reality No matter what their motivation or particular route freshmen have three traits in common they will be members of one of the most powerful deliberative bodies on the planet they will have far less leverage and influence than they might have imagined and finally none of them not even the most experienced political hand will have any idea exactly what will take to succeed as a United States Senator In The Upper House political analyst Terrence Samuel journeys inside the legislative arm of the government to discover what makes a modern senator He gets to the heart of the Senate and follows the people Harry Reid Jim Webb Amy Klobuchar Jon Tester Chuck Schumer Bob Corker and the institution through displays of dazzling power bewildering helplessness and sacred traditions both ancient and modern Fairness and Freedom David Hackett Fischer, 2012-02-10 From one of America's preeminent historians comes a magisterial study of the development of open societies focusing on the United States and New Zealand Military Decision-Making Processes Kevin Dougherty, 2013-11-08 President Bill Clinton speaking as might any commander in chief on the eve of his decision to deploy ground troops to Bosnia in 1995 declared he had no responsibility more grave than putting soldiers in harm s way Such a statement suggests that a study of the decision making process associated with the weighty matters of using force would be enlightening Indeed it is The decision making process is far from standardized nor is it simple While all individuals associated with important decisions about national security and the lives of America's service members take their responsibilities seriously the processes by which they reach their conclusions are varied and complicated The book traces eight traditional

and emerging theories or models of decision making by first explaining the components of each model and then by analyzing its practical application through three case studies Each chapter concludes with a discussion of the utility and explanatory power of the particular model Instructors considering this book for use in a course may request an examination copy here

Liebmann, 2012-01-27 Can John D Negroponte be described as The Last American Diplomat In a career spanning 50 years of unprecedented American global power he was the last of a dying breed of patrician diplomats devoted to public service a self effacing and ultimate insider whose prime duty was to advise guide and warn a bulwark of traditional diplomatic realism against ideologue excess Negroponte served as US ambassador to Honduras Mexico the Philippines and Iraq he was US Permanent Representative to the UN Director of National Intelligence and Deputy Secretary of State to George W Bush His

was a high flying and seemingly conventional career but one full of surprises Negroponte opposed Kissinger in Vietnam supported a proxy war but opposed direct American military action against Marxists in Central America facing bitter Congress opposition in the process He swam against the floodtide of George W Bush's neocon dominated administration warning against the Iraq war as a possible new Vietnam and criticising aspects of Bush's War on Terror He disconcerted the administration by arguing that the re establishment of Iraq would take as long as five years And he was influential in international social and economic policy working for the successful re settlement of millions of refugees in Southeast Asia following the Vietnam War issuing early warnings about the scourge of AIDS in Africa and successfully launching the North American Free Trade Agreement NAFTA George W Liebmann's incisive account is based on personal and shared experience but it is no hagiography beyond the author's discussions with Negroponte this book is deeply researched in US state papers and includes interviews with leading actors It will provide fascinating reading for anyone interested in the inside story of American diplomacy showing personal and policy struggles and the underlying fissures present even in the world's last remaining superpower Reclamation Reform Act of 1979 United States.
