

HEAVEN'S VERY SPECIAL CHILD

A meeting was held quite far from earth
"It's time again for another birth,"
Said the angels to the lord above,
"This special child will need much love."

His progress may seem very slow
Accomplishments he may not show.
And he'll require extra care
From the folks he meets way down there.

He may not run or laugh or play
His thoughts may seem quite far away.
In many ways, he won't adapt
And he'll be known as handicapped.

So let us be careful where he's sent
We want this life to be content.
Please Lord, find parents who,
Will do a special job for you.

They will not realize right away
The leading role they're asked to play.
But with this child sent from above
Comes stronger faith and richer love.

And soon they'll know the privilege given
In caring for this gift from heaven.
Their preccious charge, so meek and mild
Is Heaven's Very Special Child.

A Sensory Curriculum for Very Special People Flo Longhorn, 2011-09-12 This uniquely valuable book arose from the author s work with profoundly disabled children in a special needs school The sensory impairment of the children meant that they were unable to learn from traditional teaching methods as they were unaware of the world around them Our very first awareness of our surroundings and ourselves come through our senses of smell touch taste sight hearing and movement and without them we are isolated To benefit from the normal school curriculum children with sensory impairment must learn to develop each of their senses individually and in combination a process the non handicapped child goes through spontaneously and unconsciously This book outlines a curriculum for each of the senses in turn using stimuli that can be varied to suit the age of the child or young person Demonstrating how these can be combined to create a multisensory experience and how this newly developed awareness can be integrated into the rest of the school curriculum This book was developed from the author s work with profoundly disabled children their sensory impairment meant that

traditional teaching was unsuccessful as they were unaware of the world around them Flo Longhorn sets out a curriculum for developing each sense both individually and in combination using stimuli that can be varied according to the age of the child This book shows how these techniques can be amalgamated to create multisensory experiences and how this new awareness can be integrated into the rest of the school curriculum Designed for teachers and parents of children with profound multiple disabilities combined with sensory and physical impairment this has become a classic work **Parent Grief** Paul C.
