J. Jacobs, 2021-12-10 In 1962 South Korea assembled just 1 100 new automobiles By 1996 this total had soared to 2 812 714 What explains this remarkable growth The answer is complex and involves a combination of a supportive State timely technology alliances a skilled but historically low paid workforce aggressive pricing savvy entrepreneurs and fortuitous circumstances Despite this amazing ascent comparatively little has been written about the Korean auto industry in English In the first of a two volume set this 11 chapter book seeks to help fill this void by providing in depth examinations of all six of Korea's automakers from their beginnings through 1996 Uniquely written from the perspective of industry analysts at the time without knowledge of the Asian Fiscal Crisis the book should prove informative to practitioners scholars and students interested in automotive history international political economy Asian studies and more *Made in Korea* Richard M. Steers, 2013-08-21 American business folklore is awash with the adventures of successful entrepreneurs Still most of these stories are about Americans neglecting important and courageous entrepreneurs from other countries Made in Korea recounts the story of how Chung Ju Yung rose from poverty to build one of the world's largest and most successful building empires Hyundai through a combination of creative thinking tenacity timing political skills and a business strategy that few competitors ever understood Chung entered the shipbuilding business with no experience and went on to create the world's largest shipyard He began making automobiles when foreign experts unanimously predicted he would fail and he started a global construction company that has built some of today's greatest architectural wonders He even convinced the International Olympic Committee to select South Korea over Japan as the site for the highly successful 1988 Olympics Unlike most CEO's of major firms Chung has always preferred the company of his workers to that of the global executive elite Hard

work creativity and a capacity to never give up this is the essence of Chung's life. In each of his ventures he exhibited a sheer determination to succeed regardless of the obstacles and he worked tirelessly to instill this drive in all of his employees. Even today in the midst of Korea's worst economic crisis in over four decades, Chung's company is busy implementing plans to emerge as an even stronger contender in the world economy. Illustrated with 32 pages of colour photographs not previously seen in the West including photos of Chung's recent historic visit to North Korea in 1998, *Made in Korea* takes stock of Chung's entire life highlighting both his contributions to society and the lessons his work can teach to aspiring entrepreneurs.
