Dinosaurs in Fantastic Fiction Allen A. Debus,2013-03-11 From the first illustrated edition of Jules Verne's Journey to the Center of the Earth in 1867, dinosaurs and prehistory have fascinated readers. Writers would time and again come back to dinosaurs as an element of fantastic fiction, often using these creatures through the venue of the written word to reflect the world of the writers' own time. This literary survey examines how paleoliterature originated, developed, and matured to the present day. Also discussed are the ways in which dinosaur fiction mirrors contemporary ideas about subjects such as geology, the Cold War, environmentalism, time travel, evolution, and bioengineering. Featured authors include Ray Bradbury, H. G. Wells, and Poul Anderson, among others. In select cases, the novelizations of movie scripts are also examined. An appendix provides brief summaries of deserving dinosaur texts.

Toys in the Age of Wonder Mark Rich,2020-09-23 By the middle 1800s, toys were appearing in forms that drew upon and that inspired advances in areas such as optics, biology, geography, transportation, and automation. In these decades too, a new type of wonder tale was being brought to maturity by a Poe-inspired Jules Verne. The modern wonder tale's highly charged vision expressed the hopes and the fears, and the delights and the traumas engendered by new worlds, idealism, that Western pursuit of both mechanical and geographical conquest. Exploring realms belonging to childhood literature, science, and history, this innovative study weaves together the histories of wonder tales and children's toys, focusing specifically on their modern aspects and how they reflect and express the social attitudes of that time period, beginning around 1859 and ending around 1957.

Reimagining Dinosaurs in Late Victorian and Edwardian Literature Richard Fallon,2021-11-04 Reimagining Dinosaurs argues that transatlantic popular literature was critical for transforming the dinosaur into a cultural icon between 1880 and 1920.
