Eastern Ukraine post Saddam Iraq lost a third of its territory to an army of hyper violent millennialists and the peace process in Israel seemed to completely collapse In short the post Cold War security order that the US had constructed after 1991 seemed to be coming apart at the seams David Kilcullen was one of the architects of America s strategy in the late phases of the second Gulf War and he has also spent time in Afghanistan and other hotspots In Blood Year he provides a wide angle view of the current situation in the Middle East and analyzes how America and the West ended up in such dire circumstances Kilcullen lays much of the blame on Bush s initial decision to invade Iraq which had negative secondary effects in Afghanistan but also takes Obama to task for simply withdrawing and adopting a leading from behind strategy As events have proven Kilcullen contends withdrawal was a fundamentally misguided plan The U S had uncorked the genie and it had a responsibility to at least attempt to keep it under control Instead the U S is at a point where administration officials state that the losses of Ramadi and Palmyra are manageable setbacks Kilcullen argues that the U S needs to re engage in the region whether it wants to or not because it is largely responsible for the situation that is now unfolding Blood Year is an essential read for anyone interested in understanding not only why the region that the U S invaded a dozen years ago has collapsed into utter chaos but also what the U S can do to alleviate the grim situation     Securing U.S. Interests Abroad United States. Congress. Senate. Committee on Foreign Relations,2014     **Benghazi!** Ethan Chorin,2022-09-06 In recognition of the 10th anniversary of the attack in Benghazi a noted Libya expert and eyewitness to the attack provides a startling reconsideration of one of the defining controversies of our era Ten years after an attack on the US diplomatic mission in Benghazi killed Ambassador Christopher Stevens and three other Americans cries of Benghazi still echo across

America But instead of a landmark event to be taken seriously it has become a punchline an empty word or a code for controversy and political theatre In this thrilling retelling Ethan Chorin reveals Benghazi as a watershed moment in American history one that helped create the world America lives in today polarized fearful and dangerously unstable Here Benghazi is not a story contained in 13 hours but a decades long history beginning with the rise of Muammar Gaddafi stretching through 9 11 the War on Terror and the Arab Spring and reaching into the present day as the impact of the attack and ensuing controversy remain visible in America and around the world Chorin draws on his own bone chilling experience during the Benghazi attack his expertise as a former diplomat and scholar of Libyan history and new interviews with Libyan insiders eyewitnesses and key players like Hillary Clinton and Ben Rhodes With this ambitious engaging narrative Chorin makes clear why Benghazi still matters so much ten years later and why we can t afford to continue overlooking and misunderstanding it

An Independent View of The Donald J Trump Presidency William Smith,2022-11-04 In the last four years I have been seeking answers as to why our country is so deeply divided Are we being fooled by those whom we rely on to deliver the truth about what is happening within America I believe that our government has failed us by allowing those with ulterior motives to influence our hearts and minds by commercially controlling our free enterprise system of democracy This book takes a chronological look at the inner workings of our government leading up and into Donald Trump s administration which has made him the most controversial president of my lifetime He has created a following that is every bit as fanatical about our government as he has been in the way he has shaped his administration to conform to his authority Here we have a president that was impeached twice has a long history of involvement in lawsuits plays by his own rules runs his business enterprises in an autocratic manner demands loyalty while firing those who fail to serve his needs yet can do no wrong in the eyes of his MAGA admirers Half of America loves him and half despises him Who really knows and understands Donald Trump Unfortunately we do not listen to another s position in life because we have already been conditioned to believe in what we have been told and what we have experienced ourselves We have been further hampered by the lack of information as much as by planted misinformation Finding the truth within Trump s presidency has been my obsession What I promised to do is find the cause and effect of our differences by presenting verifiably historical documentation so that readers can evaluate for themselves what is real and what is deliberate deception As an Independent voter I have called upon my conservative friends and acquaintances to present their point of view In order to Make America Great Again all we need to do is listen to each other then speak our concerns with understanding and compassion
