Wilson, 2014-04-29 Many enquiries into the state of accounting education training undertaken in several countries over the
past 40 years have warned that it must change if it is to be made more relevant to students to the accounting profession and
to stakeholders in the wider community This book's overriding aim is to provide a comprehensive and authoritative source of
reference which defines the domain of accounting education training and which provides a critical overview of the state of
this domain including emerging and cutting edge issues as a foundation for facilitating improved accounting education
training scholarship and research in order to enhance the educational base of accounting practice The Routledge Companion
to Accounting Education highlights the key drivers of change whether in the field of practice on the one hand e.g. increased
regulation globalisation risk and complexity or from developments in the academy on the other e.g. pressures to embed
