Accounting Information Systems Ulric J. Gelinas, Richard B. Dull, Patrick Wheeler, 2018-09-01 Today's accounting professionals are challenged to identify enterprise risks and provide quality assurance for a company's information systems. ACCOUNTING INFORMATION SYSTEMS 11th International Edition focuses on three critical accounting information systems in use today: enterprise systems, e-Business systems, and controls for maintaining those systems. Students will easily grasp even the most challenging topics as they explore today's most intriguing AIS topics relative to business processes, information technology, strategic management, security, and internal controls. The 11th International Edition provides students with the tools for organising and managing information to help them succeed and protect the integrity of their employer's information system.

Accounting Information Systems Arline A. Savage, Danielle Brannock, Alicja Arnold, 2025-10-21 Written by an author team uniquely composed of educators and practitioners, Accounting Information Systems 2nd Edition offers a modern approach that helps students understand how course concepts are applied in the workforce and why developing these skills are so important. By incorporating their own experience and showcasing real-world applications through features like Sample LinkedIn Job Posts and Featured Professional spotlights, the authors connect course concepts to industry, allowing for greater understanding while helping students see the different opportunities a career in AIS can provide. Accounting Information Systems also focuses on teaching students how to make informed business decisions through case-based learning and data analysis applications. Students work through Julia's Cookies, a flexible running case with data sets and questions in Tableau and Excel that helps them understand how various systems come together to support a business and how those systems evolve. Integrated analysis questions that take a tool-agnostic approach are also available to promote critical thinking and communication skills.
