The book cites 20 interviews and 5 combat journals and contains 209 photos documenting the ships, planes, men and combat actions of Torpedo Squadron 4. Many of the photographs were collected by Thomas during the war and include gun photo shots, recon photos and remarkably a picture of the tail of Thomas' Torpedo plane as it sinks in the China Sea following his water crash landing. *Technical Paper*, 1974

Skies of Thunder Caroline Alexander, 2025-02-13. Riveting. The New York Times. THE LITTLE KNOWN STORY OF THE ALLIES' FIGHT IN WWII'S CHAOTIC AND LETHAL CHINA, BURMA, INDIA THEATER. In April 1942 the Imperial Japanese Army captured Burma, closing the only ground route from India to China. Supplies now had to be flown over the foothills of the treacherous Himalayas on the most dangerous air route in the world. Delving into memoirs, diaries and official records, Caroline Alexander tells the story of the airmen who braved this perilous journey flying unreliable aircraft through monsoons and enemy fire with primitive navigation tools. The result is a litany of both deadly crashes and astonishing feats of survival. Highlighting the efforts of units like the Chindits and Merrill's Marauders and examining the political tensions between Roosevelt, Churchill and Chiang Kai-shek, this book also exposes the fractures between the Allies and the impact of their decisions on post-war relations. *Flying Magazine*, 2007-08

Hell Above Earth Stephen Frater, 2012-05-10. An unforgettable and thrilling tale of two WWII bomber pilots who forged an unexpected friendship in the flak-filled skies over Germany. The air

battle over Nazi Germany in WWII was hell above earth For the British it lasted six years for the Americans three and the final death toll was 125 000 Allied aircrew including 56 000 from the RAF and 26 000 Americans from the British based Eighth Air Force For bomber crews every day they flew was like D Day exacting tremendous emotion and trauma Death could come in many guises an unlucky flak burst Luftwaffe fighters that could appear anywhere at any time or pilot error while flying less than twenty feet apart Twenty year old US Captain Werner Goering accepted this and even thrived on the adrenalin rush he was an exceptional pilot But Werner was also known to be the nephew of Herman G ring Commander in Chief of the Luftwaffe and because of it he became a marked man When Werner Goering qualified to become a bomber commander in 1942 the FBI and the American military could not prevent him from serving his American homeland in war but neither were they prepared to risk the propaganda coup that his capture or even his desertion would represent for Nazi Germany So in early 1943 J Edgar Hoover instructed his FBI agents to find a man capable of flying with Werner who was also willing to shoot him dead in the cockpit should their plane be downed in Nazi occupied Europe They found Jack Rencher a tough insular B 17 instructor from Yuma Arizona who also happened to be one of the Army s best pistol shots That Jack and Werner became unlikely friends is just one more twist in Hell Above Earth one of the most incredible untold tales to come out of WWII **Flying Magazine** ,2008-09 Flying Magazine ,1967-12
