American Orthodoxy And Parish Congregationalism Gorgias Dissertations:

American Orthodoxy and Parish Congregationalism Nicholas Ferencz, 2006 Orthodox ecclesiology consistently requires all authority in the church must be expressed in and flow from the bishop This unity of authority based upon the laying on of hands is the lived expression of the oneness and catholicity of the church American Orthodoxy however does not have such an authority structure especially on the parish level In the parish the normal structure of authority is congregationalist that is authority is split between a spiritual authority coming from those who are ordained the clergy and a material authority wielded by the unordained the laity This study explores the divergence of practice from doctrine in the American church in three steps *Church State Corporation* Winnifred Fallers Sullivan, 2020-07-15 Church and state a simple phrase that reflects one of the most famous and fraught relationships in the history of the United States But what exactly is the church and how is it understood in US law today In *Church State Corporation* religion and law scholar Winnifred Fallers Sullivan uncovers the deeply ambiguous and often unacknowledged ways in which Christian theology remains alive and at work in the American legal imagination Through readings of the opinions of the US Supreme Court and other legal texts Sullivan shows how the church as a religious collective is granted special privilege in US law In depth analyses of *Hosanna Tabor v EEOC* and *Burwell v Hobby Lobby* reveal that the law tends to honor the religious rights of the group whether in the form of a church as in *Hosanna Tabor* or in corporate form as in *Hobby Lobby* over the rights of the individual offering corporate religious entities an autonomy denied to their respective members In discussing the various communities that construct the church shaped space in American law Sullivan also delves into disputes over church property the legal exploitation of the black church in the criminal justice system and the recent case of *Masterpiece Cakeshop v Colorado Civil Rights Commission* Brimming with insight *Church State Corporation* provocatively challenges our most basic beliefs about the ties between religion and law in ostensibly secular democracies *Turning to Tradition* The Rev. D. Oliver Herbel, 2013-11-21 This book examines Christian converts to Orthodoxy who served as exemplars and leaders for convert movements in America during the twentieth century Drawing on archival resources including many unpublished Rusyn and Russian newspapers and personal archives as well as personal interviews it offers the first serious investigation of this important trend in American religion and the first in depth investigation of any kind of African American Orthodoxy *Arts & Humanities Citation Index*, 1986 A multidisciplinary index covering the journal literature of the arts and humanities It fully covers 1 144 of the world's leading arts and humanities journals and it indexes individually selected relevant items from over 6 800 major science and social science journals
