The Quran By Anonymous:

Anonymous Thomas DeGloma,2023-09-07 A rich sociological analysis of how and why we use anonymity In recent years anonymity has rocked the political and social landscape There are countless examples An anonymous whistleblower was at the heart of President Trump s first impeachment an anonymous group of hackers compromised more than 77 million Sony accounts and best selling author Elena Ferrante resolutely continued to hide her real name and identity In Anonymous Thomas DeGloma draws on a fascinating set of contemporary and historical cases to build a sociological theory that accounts for the many faces of anonymity He asks a number of pressing questions about the social conditions and effects of anonymity What is anonymity and why under various circumstances do individuals act anonymously How do individuals accomplish anonymity How do they use it and in some situations how is it imposed on them To answer these questions DeGloma tackles anonymity thematically dedicating each chapter to a distinct type of anonymous action including ones he dubs protective subversive institutional and ascribed Ultimately he argues that anonymity and pseudonymity are best understood as performances in which people obscure personal identities as they make meaning for various audiences As they bring anonymity and pseudonymity to life DeGloma shows people work to define the world around them to achieve different goals and objectives

The Baha'is of Iran Dominic Parviz Brookshaw,Seena B. Fazel,2012-10-02 The Baha i community of Iran is the country s largest non Muslim religious minority This collection of essays presents a comprehensive study of the social and historical development of the Baha i community and its role in shaping modern Iran Central to this study is the pioneering

character of the Baha'i community in the late 19th and early 20th century with chapters examining the role of women in the Baha'i community the impact of Baha'i run schools on Iranian society Baha'i contributions to public health initiatives and the influence of Baha'i thought and the actions of individual Baha'is on the Constitutional Revolution of 1906 1911 Conversion to the Baha'i Faith is another important theme as contributors investigate the phenomenon of large scale conversion to the Baha'i Faith from the Jewish and Zoroastrian communities Finally although persecution of the Baha'is has drawn the attention of the Western media until now few scholars working in the field of Iranian studies have chosen to write on the history or details of this persecution Here five prominent figures in the field redress this balance and look at different aspects of this persecution including its historical background the attitude of secular Iranians persecution before and after the Islamic Revolution of 1979 and human rights perspectives This book will be of interest to students and scholars of Iranian studies Middle Eastern studies and comparative religion and with many chapters authored by leading academics in Iranian studies The Baha'is of Iran addresses both a gap in academic literature on the Baha'i Faith and in the study of modern Iran in general

understanding of Islamic texts and the philosophical underpinnings of a faith that has shaped millions of lives Whether approached as a first encounter with the Qur'an or as a scholarly reference this collection serves as a vital resource for cultivating empathy knowledge and reflection in our increasingly interconnected world **The Longest Journey** Eric Tagliacozzo, 2013-04-25 The pilgrimage to Mecca or Hajj has been a yearly phenomenon of great importance in Muslim lands for well over one thousand years Each year millions of pilgrims from throughout the Dar al Islam or Islamic world stretching from Morocco east to Indonesia make the trip to Mecca as one of the five pillars of their faith By the end of the nineteenth century and the beginning of the twentieth fully half of all pilgrims making the journey in any given year could come from Southeast Asia The Longest Journey spanning eleven modern nation states and seven centuries is the first book to offer a history of the Hajj from one of Islam's largest and most important regions Plants of the Quran M. Islam and the Politics of Secularism Nurullah Ardic, 2012 This book examines the process of secularisation in the Middle East in the late 19th century and early 20th century that transformed the Ottoman Empire and led to the abolition of the Caliphate *Islam and Nazi Germany's War* David Motadel, 2014-11-30 With troops fighting in regions populated by Muslims from the Sahara to the Caucasus Nazi officials saw Islam as a powerful force with the same enemies as Germany the British Empire the Soviet Union and the Jews David Motadel provides the first comprehensive account of Berlin's ambitious attempts to build an alliance with the Islamic world Defining Islam for the Egyptian State Jacob

Skovgaard-Petersen, 2021-10-11 This book traces the history of the Dar al Ift the Egyptian State Mufti's administration from its inception in the 1890s to the present Often uncomfortably positioned between a state bureaucracy and an emerging Muslim public concerned with the transmission of Islamic values the various State Muftis have been striving to reinterpret Islamic law and demonstrate its relevance in the modern age The history of the Dar al Ift thus provides a rare insight into major themes of 20th century Islamic thinking Four case studies demonstrate how fatwas can be used as sources for legal social intellectual and mentality history Defining Islam for the Egyptian State will be of great interest to students of Islamic law and social and intellectual history of the modern Middle East Christianity, Islam and Atheism William Kilpatrick, 2012-09-26 For many Americans the attack on the World Trade Center on September 11 2001 was the first time they had considered Islam Were the terrorists motivated by the true dictates of their religion or had they hijacked Islam as well as the planes in a political cause unrelated to the teachings of Muhammad Christianity Islam and Atheism argues that Islam is a religion of conquest and subjugation and that in spite of 9 11 and thousands of other terrorist attacks throughout the world many in the West still do not know or admit this because it conflicts with their multiculturalism and their belief in the equivalence of all cultures and religions To meet the challenge from Islam Christians need to know more about the important differences between Islam and Christianity yet many have been lulled into complacency by the misleading and largely unexamined assumption that the two religions are similar The time that Christians spend in pursuing common ground

is time that Islamic activists will use to press their radical agenda In addition to challenging both the multicultural and common ground approaches William Kilpatrick also exposes the role played by atheists and secularists in advancing Islam Despite paying lip service to freedom radical secularists serve as enablers of radical Islam The civil liberties that the West enjoys are the fruit of Christian civilization Kilpatrick argues and only a reawakened Christianity can defend them against Islam s advance

Early Black Thinkers in the Diaspora and Their Conceptualizations of Africa Abdul Karim Bangura,2024-08-24 This book argues that just as the ideas of Pan Africanism birthed by Henry Sylvester Williams and others in the late 1800s and Negritude ushered by Aim C saire and others in the early 1900s emboldened many major Black thinkers to push for independence across Africa so will these early thinkers ideas help in the building of a new Africa The various chapters explore the proposition that the thoughts of early great Diaspora Black thinkers are still wellsprings of tenets that can be used to build a new Africa The chapters examine how these thinkers conceptualized Africa in their works with the main objective of delineating their conceptualizations to generate suggestions on how to build a new Africa
