Account Of An Expedition From Pittsburgh To The Rocky Mountains Great Americana:

American Environmental Fiction, 1782-1847 Matthew Wynn Sivils, 2016-04-15 While Ralph Waldo Emerson and Henry David Thoreau are often credited with inventing American environmental writing Matthew Wynn Sivils argues that the works of these Transcendentalists must be placed within a larger literary tradition that has its origins in early Republic natural histories Indian captivity narratives Gothic novels and juvenile literature Authors such as William Bartram Ann Eliza Bleecker and Samuel Griswold Goodrich to name just a few enabled the development of a credibly American brand of proto environmental fiction Sivils argues that these seeds of environmental literature would come to fruition in James Fenimore Cooper's *The Pioneers* which he argues is the first uniquely environmental American novel He then connects the biogeographical politics of Cooper's *The Prairie* with European anti Americanism and concludes this study by examining how James Kirke Paulding Thomas Cole and James Fenimore Cooper imaginatively addressed the problem of human culpability and nationalistic cohesiveness in the face of natural disasters With their focus on the character and implications of the imagined American landscape these key works of early environmental thought contributed to the growing influence of the natural environment on the identity of the fledgling nation decades before the influences of Emerson's *Nature* and Thoreau's *Walden*

West of Emerson Kris Fresonke, 2003-01-06 Where did American literature start The familiar story of Emerson and Thoreau has them setting up shop in Concord Massachusetts and determining the course of American writing West of Emerson overhauls this story of origins as it shifts the context for these literary giants from the civilized East to the wide open spaces of the Louisiana Purchase Kris Fresonke tracks down the texts by explorers of the far West that informed *Nature* Emerson's most famous essay and proceeds to uncover the parodic Western politics at play in classic New England works of Romanticism Westerns this book shows helped create Easterns West of Emerson roughs up genteel literary history Fresonke argues for a fresh mix of American literature one based on the far reaches of American territory and American literary endeavor Reading into the record the unexplored writings of Lewis and Clark Zebulon Pike Stephen Long and William Emory Fresonke forges surprising connections between the American West and the American visions emanating from the neighborhood of Walden Pond These connections open a new view of the politics and by way of the notion of design the theological lineage of manifest destiny Finally Fresonke's book shows how the cast of the American canon no less than the direction of American politics came to depend on what design one placed on the continent

Reading the Roots Michael P. Branch, 2004 *Reading the Roots* is an unprecedented anthology of outstanding early writings about American nature a rich influential yet critically underappreciated body of work Rather than begin with Henry David Thoreau who is often identified as the progenitor of American nature writing editor Michael P Branch instead surveys the long tradition that prefigures and anticipates Thoreau and his literary descendants The selections in *Reading the Roots* describe a diversity of landscapes wildlife and natural phenomena and their authors represent many different nationalities cultural affiliations religious views

and ideological perspectives The writings gathered here also range widely in terms of subject rhetorical form and disciplinary approach from promotional tracts and European narratives of contact with Native Americans to examples of scientific theology and romantic nature writing The volume also includes a critical introduction discussing the cultural scientific and literary value of early American nature writing headnotes that contextualize all authors and selections and a substantial bibliography of primary and secondary sources in the field Reading the Roots at last makes early American landscapes and a range of literary responses to them accessible to scholars students and general readers *Stephen Long and American Frontier Exploration* Roger L. Nichols, 1995-04-01 Major Stephen H Long of the United States Army was the most important government sponsored explorer in the decade after the War of 1812 He led three major and several minor expeditions up the Mississippi Missouri and Arkansas rivers and the Red River of the north as well as exploring the central and southern Plains the Front Range of the Rocky Mountains and the Great Lakes His companions included engineers cartographers Naturalists ethnologists and artists and they gathered a wealth of scientific military and artistic data about the interior of North America For years Long s expeditions have been overlooked or misunderstood here for the first time they are placed in the context of American scientific development **Lewis and Clark and the Image of the American Northwest** John Logan Allen, 1991-01-01 The author traces how Lewis and Clark s epic journey of 1804-06 and their charting of the American Northwest dramatically revised generally held concepts of the area s geography With 45 maps Splendidly researched and highly readable Donald Jackson editor of the Letters of the Lewis and Clark Expedition **After Lewis & Clark** Gary Allen Hood, 2006 More than sixty paintings drawings and prints inspired during the sixty five years of exploration in the West after the Corps of Discovery completed its epic journey are featured in this collection of historical artwork by George Catlin Karl Bodmer Albert Bierstadt Thomas Moran Seth Eastman Charles Bird King and other notable artists of the nineteenth century American West *A Catalogue of the Everett D. Graff Collection of Western Americana* Newberry Library, 1968-11 The Everett D Graff Collection of Western Americana consists of some 10 000 books manuscripts maps pamphlets broadsides broadsheets and photographs of which about half are described in the present catalogue The Graff Collection displays the remarkable breadth of interest knowledge and taste of a great bibliophile and student of Western American history From this rich collection now in The Newberry Library Chicago its former Curator Colton Storm has compiled a discriminating and representative Catalogue of the rarer and more unusual materials Collectors bibliographers librarians historians and book dealers specializing in Americana will find the Graff Catalogue an interesting and essential tool Detailed collations and binding descriptions are cited and many of the more important works have been annotated by Mr Graff and Mr Storm An extensive index of persons and subjects makes the book useful to the scholar as well as to the collector and dealer The book is not a bibliography but rather a guide to rare or unique source materials now enriching The Newberry Library s outstanding holdings in American history **Empire and Slavery in American Literature, 1820-1865** Eric J.

Visions of the Tallgrass James P.

Ronda,2018-09-13 In centuries long past a vast swath of grassland swept down the center of North America from Canada s Prairie Provinces to central Texas This once plentiful prairie has now all but disappeared Humans have grazed mowed and plowed the plains dammed the rivers and imposed their will on the land and its creatures Fortunately some remnants have survived including the Joseph H Williams Tallgrass Prairie Preserve in northeastern Oklahoma In this visually stunning volume wildlife photographer Harvey Payne and historian James P Ronda offer an intimate look at and into one of America s Last Great Places Spanning nearly 40 000 acres in Oklahoma s Osage County the Preserve is a living witness to a world that once existed But the Osage prairie is not a museum or theme park and it is not frozen in time Under the stewardship of The Nature Conservancy which has overseen its restoration the Preserve lives on as a fully functioning ecosystem And for twenty five years Payne and Ronda have explored these lands together and in solitude Rendered here in brilliant color and paired with Ronda s informative yet deeply personal commentary Payne s photographs open our eyes to the ever changing world of the Tallgrass Preserve In chapters focused on grass sky birds bison and fire Ronda and Payne reveal that the Big Empty is in fact teeming with life Through interwoven images and words *Visions of the Tallgrass* shows that our nation s grasslands are sacred ground a priceless piece of our American past and future

The Indian History of an American Institution Colin G. Calloway,2010-07-31

Dartmouth College began life as an Indian school a pretense that has since been abandoned Still the institution has a unique if complicated relationship with Native Americans and their history Beginning with Samson Occom s role as the first development officer of the college Colin G Calloway tells the entire complex story of Dartmouth s historical and ongoing relationship with Native Americans Calloway recounts the struggles and achievements of Indian attendees and the history of Dartmouth alumni s involvements with American Indian affairs He also covers more recent developments such as the mascot controversies the emergence of an active Native American student organization and the partial fulfillment of a promise deferred This is a fascinating picture of an elite American institution and its troubled relationship at times compassionate at times conflicted with Indians and Native American culture
