

ACCT 310 SEC10K Project Instructions:

UMGC's accounting department curriculum requires an SEC 10-K Report Project in multiple courses from introductory to advanced-level classes, including:

- ACCT 220: Principles of Accounting I / ACCT 221: Principles of Accounting II
- **ACCT 310: Intermediate Accounting I / ACCT 311: Intermediate Accounting II**
- ACCT 321: Cost Accounting
- ACCT 422: Auditing
- ACCT 424: Advanced Accounting / ACCT 425: International Accounting

In each course, you will examine different companies focusing on related-course content. This allows you to build your knowledge of accounting and industries.

The UMGU Principles of Accounting I & II courses introduced you to specific components of an SEC 10-K Report as bases for fundamental financial ratio analyses and interpretation of results for a selected corporation. In the more advanced accounting courses, including Intermediate Accounting I & II, you will delve deeper into analyzing financial statements, schedules, and notes to gain a more in-depth understanding of a corporation through its SEC 10-K filing.

The SEC 10-K assignment will consist of research to write a report on an annual SEC 10-K report filed by a public company with the U.S. Securities and Exchange Commission (SEC). The focus of this assignment is on the financial statements as a whole and the concepts related to the topics covered in this course. You will conduct research to select a public company of your choice from the list of companies included in the Fortune 500 then locate its most recent SEC 10-K report for your project. As part of this project, you will participate each week in the discussions specifically designed to apply concepts and research the SEC10K. There are two deliverables: (1) SEC 10-K Report, and (2) SEC 10-K Power Point presentation based on your report. Grading will be per Rubric in Leo. It is recommended that you review the rubric to maximize your earned grade.

Many students benefit from the use of the UMGU Effective Writing Center. (access from Academic Support in the classroom horizontal menu bar).

Readings in Accounting for Management Control David Otley and Kenneth Merchant Clive Emmanuel, 2013-12-19. This collection contains the main journal articles necessary to complement and support the established second edition of *Accounting for Management Control*. The success of the text stems from the authors' commitment to examining management accounting in an organizational and behavioural context. Only in this way can the contribution to the management control system be evaluated. The articles contained in this volume follow the structure and content of the main book, providing deeper insights into those fundamental issues of accounting control systems design and indicating the direction of future developments in research. The collection contains articles with a variety of perspectives and range from as early as the 1950s through to the present. The inclusion of all these papers in one volume gives the student easier access to the body of work upon which the main text is based. A teacher's manual to be used in conjunction with the main text is also available. This book should be of interest to senior undergraduate students of accounting and finance and university and polytechnic libraries.
