**Life of American Snipers: Chris Kyle and the Rest of the Elite Snipers** Mark Dawn, 2015-02-27 American snipers have gained increased popularity after the production of the movie American Sniper based on the life of Chris Kyle who served as a sharp shooter in Iraq consecutively for about four periods Sharp shooter is the less common term to describe snipers whose role in history started in the World War Famous snipers have since emerged forming part of the elite Navy Seals While some people refer to snipers as cowards because they do seem to not be actively engaged in combat they have been hailed as heroes due to the reduced misses during combat and the flexibility of their attack to rely on stealth American snipers have played a huge role in eliminating some of the terrorists bent on causing terror around the world Snipers are originally meant to increase the chances of winning a war They do this by neutralizing the most dangerous people in war from a concealed distance and thereby serve to provide an advantage to their side **Summary of John West's Fry The**

*American War Stories* Brenda M. Boyle, 2020-11-13 American War Stories asks readers to contemplate what traditionally constitutes a war story and how that constitution obscures the normalization of militarism in American culture The book claims the traditionally narrow scope of war story as by a combatant about his wartime experience compartmentalizes war casting armed violence as distinct from everyday American life Broadening war story beyond the specific genres of war narratives such as war films war fiction or war memoirs American War Stories exposes how ingrained militarism is in everyday American life a condition that challenges the very democratic principles the United States is touted as exemplifying

**On the Trail of the D.C. Sniper** Jack R. Censer, 2010-04-06 For a month in the fall of 2002 a series of sniper attacks suddenly dominated the headlines in the nation's capital Beginning in the Washington suburbs these crimes eventually stretched over one hundred miles along I 95 to Richmond More than a thousand law officers would pursue the perpetrators an enormous number for one case The number of reporters covering the story however was even greater On the Trail of the D C Sniper uses the remarkable events of that October to explore the shifting character of journalism as it entered the twenty first century and to question how this change in the way news is gathered

and reported impacted the events it covered Because of its political significance Washington D C although not a huge population center is home to an international news corps rivaling that of London or New York The sniper story thus gained unusually broad media coverage These events also coincided with the rise of cable network news meaning that the story would be delivered through a greatly accelerated news cycle Continuous coverage on television meant a more intense race for scoops when a major development wasn't available lesser incidents were sometimes played up in an attempt to maintain the sense of an always unfolding story Jack Censer looks at the atmosphere of heightened anxiety in which this killing spree occurred coming only a year after the 9 11 attacks as well as the unsolved anthrax scare centered in the D C area and asks if the press by intensifying its focus also intensified the sense of fear To bring in another perspective Censer looks closely at the elementary and secondary schools in the area comparing their experience of the threat with the press's perception and presentation of it In most cases school officials chose a course of precaution in which life could carry on rather than one of hypervigilance and lockdowns Although it is widely thought that journalists have strong political and commercial biases Censer reveals that in this case the press was motivated above all by the creation of a gripping story to evoke emotion from its audience One of the most detailed studies yet published of how the press follows a story in the twenty four hour news era this book provides a window on post 9 11 anxiety and the relationship between those fears public events and the news media

interrelated concepts frame the book's attempt to stay in the moment of looking at visual cultures of survival. First the concept of the war in between captures those interstitial spaces of war where violence and survival persist side by side. Second this book expands the concept of indexicality to consider how images of the in between rely on a range of indexical traces to produce alternative visualities about survival and endurance. Third the book introduces an asymptotic analysis to explore the value in getting close to the diverse experiences that comprise the war in between even if the horizon line of experience is always just out of reach. Exploring the capaciousness of survival reveals that there is more to feel and engage in war images than just mangled bodies collapsing buildings and industrialized death. *The War In Between* Kozol argues offers not a better truth about war but an accounting of visualities that arise at the otherwise unthinkable junction of conflict and survival.

**Military Waste** Joshua O. Reno, 2020-02-04 World War III has yet to happen and yet material evidence of this conflict is strewn everywhere resting at the bottom of the ocean rusting in deserts and floating in near Earth orbit In *Military Waste* Joshua O. Reno offers a unique analysis of the costs of American war preparation through an examination of the lives and stories of American civilians confronted with what is left over and cast aside when a society is permanently ready for war Using ethnographic and archival research Reno demonstrates how obsolete military junk in its various incarnations affects people and places far from the battlegrounds that are ordinarily associated with warfare Using a broad swath of examples from excess planes ships and space debris that fall into civilian hands to the dispossessed and polluted island territories once occupied by military bases to the militarized masculinities of mass shooters *Military Waste* reveals the unexpected and open ended relationships that non combatants on the home front form with a nation permanently ready for war
