New Dark Age James Bridle, 2019-05-21 *New Dark Age* is among the most unsettling and illuminating books I ve read about the Internet which is to say that it is among the most unsettling and illuminating books I ve read about contemporary life New Yorker As the world around us increases in technological complexity our understanding of it diminishes Underlying this trend is a single idea the belief that our existence is understandable through computation and more data is enough to help us build a better world In reality we are lost in a sea of information increasingly divided by fundamentalism simplistic narratives conspiracy theories and post factual politics Meanwhile those in power use our lack of understanding to further their own interests Despite the apparent accessibility of information we re living in a new Dark Age From rogue financial systems to shopping algorithms from artificial intelligence to state secrecy we no longer understand how our world is governed or presented to us The media

is filled with unverifiable speculation much of it generated by anonymous software while companies dominate their employees through surveillance and the threat of automation In his brilliant new work leading artist and writer James Bridle surveys the history of art technology and information systems and reveals the dark clouds that gather over our dreams of the digital sublime

The Political Psychology of the Veil Sahar Ghumkhor, 2019-11-21 Veiled women in the West appear menacing Their visible invisibility is a cause of obsession What is beneath the veil more than a woman This book investigates the preoccupation with the veiled body through the imaging and imagining of Muslim women It examines the relationship between the body and knowledge through the politics of freedom as grounded in a natural body in the index of flesh The impulse to unveil is more than a desire to free the Muslim woman What lies at the heart of the fantasy of saving the Muslim woman is the West's desire to save itself The preoccupation with the veiled woman is a defense that preserves neither the object of orientalism nor the difference embodied in women's bodies but inversely insists on the corporeal boundaries of the West's mode of knowing and truth making The book contends that the imagination of unveiling restores the West's sense of

its own power and enables it to intrude where it is other thus making it the centre and the agent by promising universal freedom all the while stifling the question of what freedom is *Blockbusters and the Ancient World* Chris Davies,2019-03-21 Following the release of Ridley Scott's *Gladiator* in 2000 the ancient world epic has experienced a revival in studio and audience interest Building on existing scholarship on the Cold War epics of the 1950s 60s including *Ben Hur* *Spartacus* and *The Robe* this original study explores the current cycle of ancient world epics in cinema within the social and political climate created by September 11th 2001 Examining films produced against the backdrop of the War on Terror and subsequent invasions of Iraq and Afghanistan this book assesses the relationship between mainstream cinema and American society through depictions of the ancient world conflict and faith Davies explores how these films evoke depictions of the Second World War the Vietnam War and the Western in portraying warfare in the ancient world as well as discussing the influence of genre hybridisation narration and reception theory He questions the extent to which ancient world epics utilise allegory analogy and allusion to parallel past and present in an industry often dictated by market forces Featuring analysis of *Alexander* *Troy* *300* *Centurion* *The Eagle* *The Passion of the Christ* and more this book offers new insight on the continued evolution of the ancient world epic in cinema [Strong Female Character](#) Hanna Flint,2023-02-07 Leading film critic of her generation offers an unflinchingly honest and humorous account of her millennial journey towards self acceptance through a cinematic lens Hanna Flint speaks from the heart in *Strong Female Character* a personal and incisive reflection on how cinema has been the key to understanding herself and the world we live in A staunch feminist of mixed race heritage Hanna has succeeded in an industry not designed for people like her Interweaving anecdotes from familial and personal experiences episodes of messy sex introspection and that time actor Vincent D Onofrio tweeted that Hanna Flint sounded like a secret agent she offers a critical eye on the screen's representation of women and ethnic minorities their impact on her life body image and ambitions with the humour and eloquence that has made her a leading film critic of her generation Divided into the sections *Origin Story* *Coming of Age* *Adult Material* *Workplace Drama* and *Strong Female Character* the book ponders how the creative industries could better reflect our multicultural society Warm funny and engaging and full of film infused lessons *Strong Female Character* will appeal to readers of all backgrounds and seeks to help us better see ourselves in our own eyes rather than letting others decide who and what we can be **Frames of Minds** Eelco F. M. Wijdicks,2024 As a medium that aims to connect people through the communication and interpretation of experiences cinema is uniquely positioned to showcase cultural misunderstandings around issues of mental health *Frames of Minds* traces a history of psychiatry in film concentrating on the major paradigm shifts in neuropsychiatry over the last century Oftentimes representations of psychiatry mental illness and psychotic breakdown are reduced to tropes and used by filmmakers as a tool for plot progression Conversely films can be used as an avenue to voice common concerns about the missteps of psychiatry including overdiagnosis and mistreatment Dr Eelco Wijdicks provides fresh insights into the minds of filmmakers and how

they creatively tackle this complex topic How do filmmakers use psychiatry and what do they want us to see What is their frame of mind psychoanalytically biologically sociologically anthropologically Were they influenced by their own prejudices about the origins of mental illness How does this influence the direction of their films Examining the history of film alongside developments in neuropsychiatry Frames of Minds uncovers a cinematic language of psychiatry By taking chances to portray mental illness filmmakers aim to achieve a sense of reality and provide catharsis for viewers through the act of dramatization Ultimately the history of psychiatry in film is a history of the public perception of medicine and the ways psychiatry is understood by directors writers actors and audiences
