The Sorrows of an American Siri Hustvedt, 2008-04-01 The Sorrows of an American is a soaring feat of storytelling about the immigrant experience and the ghosts that haunt families from one generation to another When Erik Davidsen and his sister Inga find a disturbing note from an unknown woman among their dead father's papers they believe he may be implicated in a mysterious death Siri Hustvedt's The Sorrows of an American tells the story of the Davidsen family as brother and sister uncover its secrets and unbandage its wounds in the year following their father's funeral Returning to New York from Minnesota the grieving siblings continue to pursue the mystery behind the note While Erik's fascination with his new tenants and emotional vulnerability to his psychiatric patients threaten to overwhelm him Inga is confronted by a hostile journalist who seems to know a secret connected to her dead husband a famous novelist As each new mystery unfolds Erik begins to inhabit his emotionally hidden father's history and to glimpse how his impoverished childhood the Depression and the war shaped his relationship with his children while Inga must confront the reality of her husband's double life A novel about fathers and children listening and deafness recognition and blindness the pain of speaking and the pain of keeping silent the ambiguities of memory loneliness illness and recovery Siri Hustvedt's exquisitely moving prose reveals one family's hidden sorrows through an extraordinary mosaic of secrets and stories that reflect the fragmented nature of identity itself

Ritual, Family and Therapy in Anglophone Literatures

Lars Heiler, 2025-03-10 This book investigates the triadic constellations between ritual family and therapy in literature in English Many rituals so called rites of passage in particular are strongly associated with the changing status of individuals as members of a family unit Traditional healing rituals were often designed to have a therapeutic effect sometimes mentally but also physically whereas modern psychotherapies often include ritual elements in order to enhance the efficacy of their treatment Families on the other hand can be the site of therapeutic activity by providing protection stability and emotional comfort yet difficult family constellations may also be the origin of emotional distress and the reason why a person needs counselling and therapeutic support in the first place Modern therapies such as family systems therapy have expanded their range of interest and influence in order to look at the whole family unit not just the symptomatic individual as client This

Analog Fictions for the Digital Age Julia Breitbach, 2012 Shows how current photographic discourse can illuminate the analysis of recent literary realism and proposes a truly original photographic hermeneutics for literary study Both realist post postmodernist aesthetics in the twenty first century and the legacy of analog photography in its recent digital incarnation depend on an aesthetics of trust and a sense of contingent referentiality Julia Breitbach s innovative study demonstrates how current photographic discourse may be used as an illuminating critical idiom for the analysis of recent forms of literary realism thus proposing a photographic hermeneutics for the study of literature Along with a thorough critical investigation of both fields Breitbach offers a pioneering theoretical exploration of analog and digital photography based on recent thing theory which she then applies to in depth analyses of realist aesthetics in selected post millennial novels by Don DeLillo Michael Ondaatje and Ali Smith yielding fresh perspectives on the remediation between photography and literature in the twenty first century An original contribution to the study of contemporary Anglophone literatures with an interdisciplinary appeal this study will be of interest especially to scholars and students in Anglophone literary studies comparative literature cultural studies and media studies Julia Breitbach is Assistant Professor in the Department of American Studies at the University of Konstanz Germany

Rewriting the American Soul Anna Thiemann, 2017-09-13 *Rewriting the American Soul* focuses on the political implications of psychoanalytic and neurocognitive approaches to trauma in literature their impact on cultural representations of collective trauma in the United States and their subversive appropriation in pre and post 9 11 fiction Anna Thiemann connects cutting edge trauma theory with the historical context from which it emerged and shows that contemporary novels encourage us to reflect critically on the cultural meanings and political uses of trauma In doing so it contributes to a new generation of trauma scholarship that challenges the dominant paradigm in literary and cultural studies Moreover the book intervenes in current debates about the relationship between literature and neuroscience insisting that the so called neuronovel scrutinizes scientific developments and their political ramifications rather than adopting and translating them into aesthetic practices
