The Thin Red Line By James Jones:

The Thin Red Line James Jones, 2014-06-05 Moves so intensely and inexorably that it almost seems like the war it is describing The New York Times Book Review Is it really worth it to die to be dead just to prove to everybody that you're not a coward On Guadalcanal in the south Pacific the soldiers of C Company are about to enter the war The men know they face their baptism of fire But none know if they will be one of the lucky ones to make it safely off the island From Captain Stein who feels like a father to his troops and Mad Sergeant Welsh condemning all nations while swigging gin from his canteen to Private Bell who just wants to get home to his wife they will discover the line that divides sanity from madness and life from death A scathing critique of heroism The Thin Red Line is among the greatest masterpieces of war writing The men are real the words are real death is real imminent and immediate Los Angeles Times James Jones Steven R. Carter, 1998 James Jones's spiritual beliefs were central to his great World War II trilogy From Here to Eternity The Thin Red Line and Whistle as well as to the rest of his fiction In this first book length exploration of the subject Steven Carter argues that Jones's ideas about reincarnation karma and spiritual evolution were heavily influenced by transcendentalism theosophy and Oriental religions The author places Jones in what he identifies as a tradition of American literary Orientalism that includes Emerson Thoreau Kerouac Ginsberg and others Carter bases his argument on extensive research into American literature and criticism coupled with visits and personal correspondence with Jones Terrence Malick and the Examined Life Martin Woessner, 2024-03-25 Terrence Malick is one of American cinema's most celebrated filmmakers His films from Badlands 1973 and Days of Heaven 1978 to The Thin Red Line 1998 The Tree of Life 2011 and most recently A Hidden Life 2019 have been heralded for their artistry and lauded for their beauty but what really sets them apart is their ideas Terrence Malick and the Examined Life is the most comprehensive account to date of this unparalleled filmmaker's intellectual and artistic development Utilizing newly available archival sources to offer original interpretations of his canonical films Martin Woessner illuminates Malick's early education in philosophy at Harvard and Oxford as well as his cinematic apprenticeship at the American Film Institute to show how a young student searching for personal meaning became a famous director of Hollywood films Woessner's book presents a rich interdisciplinary exploration of the many texts thinkers and traditions that made this transformation possible from the novels of Hamlin Garland James Jones and Walker Percy to the philosophies of Stanley Cavell Martin Heidegger and Søren Kierkegaard to road movies Hollywood Westerns and the comedies of Jean Renoir Situating Malick's filmmaking within recent intellectual and cultural history Woessner highlights its lasting contributions to both American cinema and the life of the mind Terrence Malick and the Examined Life suggests it is time for philosophy to be viewed not merely as an academic subject overseen by experts but also as a way of life open to each and every moviegoer

Beyond Hostile Islands Daniel McKay, 2024-04-02 WINNER JAVIER COY BIENNIAL RESEARCH AWARD BEST MONOGRAPH Offers a fascinating window into how the fraught politics of apology in the East Asian region have been

figured in anglophone literary fiction The Pacific War 1941-1945 was fought across the world's largest ocean and left a lasting imprint on anglophone literary history However studies of that imprint or of individual authors have focused on American literature without drawing connections to parallel traditions elsewhere Beyond Hostile Islands contributes to ongoing efforts by Australasian scholars to place their national cultures in conversation with those of the United States particularly regarding studies of the ideologies that legitimize warfare Consecutively the book examines five of the most significant historical and thematic areas associated with the war island combat economic competition internment imprisonment and the atomic bombing of Hiroshima and Nagasaki Throughout the central issue pivots around the question of how or whether at all New Zealand fiction writing differs from that of the United States Can a sense of islandness the tyranny of distance Mori cultural heritage or the political legacies of the nuclear free movement provide grounds for distinctive authorial insights As an opening gambit Beyond Hostile Islands puts forward the term ideological coproduction to describe how a territorially and demographically more minor national culture may accede to the essentials of a given ideology while differing in aspects that reflect historical and provincial dimensions that are important to it Appropriately the literary texts under examination are set in various locales including Japan the Solomon Islands New Zealand New Mexico Ontario and the Marshall Islands The book concludes in a deliberately open ended pose with the full expectation that literary writing on the Pacific War will grow in range and richness aided by the growth of Pacific Studies as a research area

Twentieth-Century American Fiction on Screen R. Barton Palmer, 2007-02-22 The essays in this collection analyse major film adaptations of twentieth century American fiction from F Scott Fitzgerald's *The Last Tycoon* to Toni Morrison's *Beloved* During the century films based on American literature came to play a central role in the history of the American cinema Combining cinematic and literary approaches this volume explores the adaptation process from conception through production and reception The contributors explore the ways political and historical contexts have shaped the transfer from book to screen and the new perspectives that films bring to literary works In particular they examine how the twentieth century literary modes of realism modernism and postmodernism have influenced the forms of modern cinema Written in a lively and accessible style the book includes production stills and full filmographies Together with its companion volume on nineteenth century fiction the volume offers a comprehensive account of the rich tradition of American literature on screen

The Last Great American Picture Show Alexander Horwath, Thomas Elsaesser, Noel King, 2004 This publication is a major evaluation of the 1970s American cinema including cult film directors such as Bogdanovich Altman and Peckinpah

Total Mobilization Roy Scranton, 2019-07-30 Since World War II the story of the trauma hero the noble white man psychologically wounded by his encounter with violence has become omnipresent in America's narratives of war an imaginary solution to the contradictions of American political hegemony In *Total Mobilization* Roy Scranton cuts through the fog of trauma that obscures World War II uncovering a lost history and reframing the way we talk about war today

Considering often overlooked works by James Jones Wallace Stevens Martha Gellhorn and others alongside cartoons and films Scranton investigates the role of the hero in industrial wartime showing how such writers struggled to make sense of problems that continue to plague us today the limits of American power the dangers of political polarization and the conflicts between nationalism and liberalism By turning our attention to the ways we make war meaningful and by excavating the politics implicit within the myth of the traumatized hero *Total Mobilization* revises the way we understand not only World War II but all of postwar American culture **Encyclopedia of the American Novel** Abby H. P. Werlock, 2015-04-22 Praise for the print edition no other reference work on American fiction brings together such an array of authors and texts as this
