Entry Planning for Equity-Focused Leaders Jennifer Perry Cheatham, Rodney Thomas, Adam Parrott-Sheffer, 2022-08-16 A vital resource for educational leaders Entry Planning for Equity Focused Leaders introduces an equity minded process for intentional entry planning that sets the stage for sustainable change within organizations In this practitioner focused and action oriented work

Jennifer Perry Cheatham Rodney Thomas and Adam Parrott Sheffer consolidate their extensive experience centering equity in leadership. They affirm that the entry of a new leader or the pivot of an established one affords an unparalleled opportunity to garner the insight, trust, and commitment that will establish a basis for positive equitable transformation within a system. This essential work provides a flexible framework for leadership entry that is customized to fit the complex social, political, and economic demands of a given organization and the community it serves. It highlights how such an approach prepares leaders to begin addressing one of the most entrenched and persistent issues in education: structural and systemic racism. Appealing to community and school leadership at all levels—superintendents, principals, project managers, and nonprofit partners—among others, the book presents seven components needed to enact an entry plan: from understanding context to establishing transparency to galvanizing partners for action. Through case studies and interviews, the authors explore the key skills necessary for each component. They then offer a wide range of supplementary tools and exercises to help leaders begin or recast their tenures and advance their agendas successfully. The process outlined here encourages readers to reflect, take calculated risks, and chart new paths. This book gives leaders the means to make necessary, meaningful progress.

Choosing Charters Joshua L. Glazer, 2018-03-30. Do charter schools strengthen students' educational experience? What are their social costs? This volume brings together a group of premier researchers to address questions about the purposes of charter schools and the role of public policy in shaping the educational agenda. Chapter authors explore topics seldom encountered in the current charter school debate, such as the challenges faced by charter schools in guaranteeing students' civil rights and other legal protections, the educational and social implications of current instructional programs designed specifically for low-income and minority students, the use of charters as school turnaround agents, and other issues that lie at the intersection of education politics and social policy. Readers across the political spectrum, both supporters and critics of charter schools, can use this book to inform public policy about the ways in which charters affect diversity and inequality and the potential to devise policies that mitigate the most troublesome social costs of charter schools. **Book Features:** Examines how charter schools affect diversity and equity in U.S. schools. Describes how segregation plays out by race, ethnicity, and income, by disability, and language minority status, and by culture, language, and religion. Considers charter schools within a broader social context of high poverty rates, changing demographics, and continued housing and school segregation. Examines charter schools in the context of a new federal administration that is forging its own path in education and other domains of social policy. Includes some of the most prominent researchers and commentators in the field, spanning policy research, traditions, methodological approaches, and theoretical perspectives.

The Cost of Racial Equality Major G. Coleman, 2025-10-14 Knowing the cost of products is important If you don't know how much your item costs whatever it may be you are likely to be overcharged or under protected Racial equality is very much like any product Generally you get what you pay for assuming you are buying well made products from reputable and professional sources The more you pay the more you get the less you pay the less you get But everyone knows there are often wild exceptions to the general rule of getting what you pay for Racial equality is no exception Some low cost racial equality programs provide tremendous bang for the buck K 12 school integration affirmative action in higher education funding for anti discrimination enforcement and political equality in voting are just a few examples However by refusing to calculate the costs involved and choosing to pay little or nothing for racial equality the nation is defaulting to the highest cost options This is like trying to save money on transportation by not changing the oil in your car Racial equality cost decisions are particularly problematic as the nation moves to being majority minority by mid century Not knowing the costs for racial equality threatens American democracy
