Cochrane analyses the dominance of London theatre but redresses the balance in favour of the hitherto marginalised majority experience in the English regions and the other component nations of the British political construct. Developments arising from demographic change are outlined especially those relating to the rapid expansion of migrant communities representing multiple ethnicities. Presenting fresh historiographic perspectives on twentieth century British theatre the book breaks down the traditionally accepted binary oppositions between different sectors showing a broader spectrum of theatre practice.

**People, Places and Business Cultures** Paolo Di Martino, Andrew Popp, Peter Scott, 2017. Inspired by the work and legacy of Francesca Carnevali this collection brings together new research into nineteenth and twentieth century British and European economic history, socio cultural history and business history. This collection brings together new research into nineteenth and twentieth century British and European economic history, socio cultural history and business history. It is inspired by the work and legacy of Francesca Carnevali who throughout her career encouraged a lively dialogue between these different disciplines. The book offers innovative views and perspectives on key debates and emphasises the connections between economic environments and wider social and cultural elements. It also considers methodological issues and emerging approaches in economic history. Topics include banks and business finance in the nineteenth century, mass market retailing and class demarcations, economic microhistory and comparative history and capitalism. Economic, business, social and cultural historians alike will find it of interest. PAOLO DI MARTINO is Senior Lecturer in International Business History at the Birmingham Business School, University of Birmingham. ANDREW POPP is Professor of Business History at the University of Liverpool. PETER SCOTT is Professor of International Business History at the University of Reading's Henley Business School and Director of Henley's Centre for International Business History. CONTRIBUTORS: Andrea Colli, Paolo Di Martino, Leslie Hannah, Matthew Hilton, Ken Lipartito, Lucy Newton, Andrew Popp, Peter Scott, Anna Spadavecchia, James Walker, Chris Wickham.

Everyday Mobilities in Nineteenth- and Twentieth-Century British Diaries Colin G. Pooley, Marilyn E. Pooley, 2022-10-19. This book uses diaries written by ordinary British people over the past two centuries to examine and explain the nature and extent of everyday mobilities such as travel to school, to work, to shop or to visit friends and to explore the meanings attached to these mobilities. After a critical evaluation of diary writing the ways in which mobility changed over time, interacted with new forms of transport technology and varied from place to place are examined. Further chapters focus on the roles of family and life course, gender, income and class and journey purpose in shaping mobilities, including immobility. It is argued that easy and frequent everyday mobilities were experienced by most of the diarists studied that travellers could exercise their own agency to adapt easily to new forms of transport technology but that factors such as gender, class and location also created significant mobility inequalities.

*The Life and Death of the Shopping City* Alistair Kefford, 2022-04-07. Traces the transformation, redevelopment of Britain's cities from post war reconstruction and modernist urban renewal to the present day.

Soviet Consumer Culture in the Brezhnev Era Natalya Chernyshova, 2013-06-26. After decades of turmoil and

trauma the Brezhnev era brought stability and an unprecedented rise in living standards to the Soviet Union enabling ordinary people to enjoy modern consumer goods on an entirely new scale This book analyses the politics and economics of the state s efforts to improve living standards and shows how mass consumption was often used as an instrument of legitimacy ideology and modernization However the resulting consumer revolution brought its own problems for the socialist regime Rising well being and the resulting ethos of consumption altered citizens relationship with the state and had profound consequences for the communist project The book uses a wealth of sources to explore the challenge that consumer modernity was posing to Soviet mature socialism between the mid 1960s and the early 1980s It combines analysis of economic policy and public debates on consumerism with the stories of ordinary people and their attitudes to fashion Western goods and the home The book contests the notion that Soviet consumers were merely passive abused eternally queuing victims and that the Brezhnev era was a period of stagnation arguing instead that personal consumption provided the incentive and the space for individuals to connect and interact with society and the regime even before perestroika This book offers a lively account of Soviet society and everyday life during a period which is rapidly becoming a new frontier of historical research

**British Spy Fiction and the End of Empire** Sam Goodman,2015-06-05 Drawing focus on a crucial period of contemporary British history this book explores Cold War anxieties over Imperial decline and British identity through analysis of space in popular twentieth century spy fiction enabling the cultural impact of decolonisation to be read in a new and revealing light Visiting the literary representation of space identity and power in the work of Ian Fleming Graham Greene and John le Carr it is an excellent resource for any scholars with an interest in spy fiction British fiction and popular literature

[The Scandal of Evangelicals and Homosexuality](#) Mark Vasey-Saunders,2016-03-09 English evangelicals give the appearance of being a community at war with each other and with the world around them The issue of homosexuality is one of the key battlegrounds How has this issue become so significant to evangelicals Why is it provoking such violent responses How is it changing evangelicals and what might this mean for the future This book examines the history of evangelical responses to the issue of homosexuality setting them in a wider historical and cultural context and drawing on the work of Rene Girard to argue that the issue of homosexuality has come to symbolise deeply held convictions within evangelicalism The conflict over the issue that is now becoming apparent within evangelicalism reveals deep divisions within the evangelical community that will have great significance for the future The Scandal of Evangelicals and Homosexuality offers an alternative perspective seeking not to present an answer to the ethical question but rather to examine the way the debate has become scandalised and consider the cost It offers a window into contemporary English evangelicalism and provides an important contribution to international and ecumenical debate

**The United States, the Soviet Union and the Geopolitical Implications of the Origins of the Cold War** Nicolas Lewkowicz,2018-10-30 The United States the Soviet Union and the Geopolitical Implications of the Origins of the Cold War 1945 1949 describes how the United States and the Soviet Union deployed their

hard and soft power resources to create the basis for the institutionalization of the international order in the aftermath of World War Two. The book argues that the origins of the Cold War should not be seen from the perspective of a magnified spectrum of conflict but should be regarded as a process by which the superpowers attempted to forge a normative framework capable of sustaining their geopolitical needs and interests in the post war scenario. The United States, the Soviet Union and the Geopolitical Implications of the Origins of the Cold War 1945-1949 examines how the use of ideology and the instrument of political intervention in the spheres of influence managed by the superpowers were conducive to the establishment of a stable international order. It postulates that the element of conflict present in the early period of the Cold War served to demarcate the scope of manoeuvring available to each of the superpowers and studies the notion that the United States and the Soviet Union were primarily interested in establishing the conditions for the accomplishment of their vital geostrategic interests. This required the implementation of social norms imposed in the respective spheres of influence, a factor that provided certainty to the spectrum of interstate relations after the period of turmoil that culminated with the onset of World War Two.

**AoG Leadership and Culture** William Foster, 2024-02-12. The growth of Global Pentecostalism in the past century has been studied and documented from many perspectives. Its leadership culture and ecclesiology, however, has received scant academic and theological attention. This book, based on an extensive research study of the Assemblies of God of Great Britain (AoG), could not be more timely. Conducted as AoG entered its centenary decade and faced the challenges that its historic culture and leadership dynamics posed, the leadership struggles discussed in this book will resonate with any denomination that has grown or wrestled with polity, leadership and culture.

*Whispers Across Continents: In Search of the Robinsons* Gareth Winrow, 2019-09-15. Through the lens of an extraordinary family, a number of fascinating stories relating to the wider tumult of late 19th century Europe are revealed. Playing an instrumental role in the Ottoman Empire, the story of the Robinsons is an incredible rags to riches tale that stretches from the tenant farms of Lincolnshire to the palaces of Constantinople.

Religion and the Demographic Revolution Callum G. Brown, 2012. In the 1960s, Christian religious practice and identity declined rapidly, and women's lives were transformed, spawning a demographic revolution in sex, family and work. The argument of this book is that the two were intimately connected, triggered by an historic confluence of factors.
